E. R. COOKINGHAM & CO.

CARO, MICHIGAN.

1890.

Entered according to Act of Congress in the year 1890, by E. R. Cookingham & Co., in the office of the Librarian of Congress, at Washington, D. C.

PREFACE SALUTATORY.

THE PUBLISHERS TO THE PATRONS OF THE HURON COUNTY ATLAS.

We greet you with congratulations, which we feel should be mutual, on the completion of our arduous labors, editing, compiling, drawing, engraving and publishing the work now placed before you. The difficulties which attend the preparation of such a work by individual enterprise can be understood only by those who have been engaged in similar undertakings. We believe, however, that the great labor and expense bestowed upon this atlas have been productive of highly remunerative results, to you, at least, as well as to all interested in the welfare of the county, if not to ourselves.

CO-OPERATION.

The compilation of the details of the maps has been attended with a vast amount of research and labor. We are happy to acknowledge the kind interest which has almost universally been manifested in the work through the county, and the cordiality and effectiveness of the co-operation of many who reside outside of Huron County.

UNITED STATES SYSTEM OF LAND SURVEYS.

It may not be out of place here to give a brief description of the United States system of surveys applied to the lands of Michigan, which will also describe the general features, the uniformed method for all the public lands of the United States.

PRINCIPAL MERIDIAN AND BASE LINES.

A meridian line running through the State from north to south and a base line running across the State from east to west, were first surveyed out. These two lines serve as base lines for all surveys in the State. The Michigan meridian was the first one located for the United States public lands, before the State was organized, and is known as the *First Principal Meridian*. It forms the boundary between Lenawee and Hillsdale counties, passes through the middle of Jackson and Ingham, divides Clinton from Shiawassee and Gratiot from Saginaw, Crawford from Oscoda and Ostego from Montmorency, and passing through the eastern part of Cheboygan County, strikes Lake Huron nearly south of the eastern extremity of Bois Blanc Island.

The base line for this meridian runs from Lake Michigan to Lake Huron, along the northern boundaries of Van Buren, Kalamazoo, Calhoun, Jackson, Washtenaw and Wayne counties.

RANGE AND TOWNSHIP.

After establishing the meridian and base lines, the surveyor proceeds to lay off the country into townships, six miles square. Having measured a distance of six miles along the base line to the east or west of the Principal Meridian, a monument is erected at the six mile point, and another meridian is surveyed out from north and south from this monument. This strip of land six miles wide lying between and extending entirely across the State, is called a Range—the Range adjacent to the Principal Meridian is called Range 1 east, if on the east side, or Range 1 west, if on the west side of the Principal Meridian. The second six miles wide adjoining the first is called Range 2 east or 2 west, as the case may be, and so in the same manner on both sides of the Principal Meridian until the entire State is divided into ranges. These ranges are subdivided into townships by east and west lines six miles apart. The township adjacent is called Township 1 north, if on the north side, and Township 1 south, if on the south side of the Base Line, the next Township 2 north or 2 south, as the case may be, and so on to the northern and southern boundaries of the State. Portions of townships which are not complete where the ranges are bounded by irregular lines or bodies of water are called Fractional Townships. On the margin of the map of the county in this work will be found the number of the ranges and towns of the State passing through this county and at the top of the respective township maps.

CONCLUSION.

In conclusion, the publishers, upon whom the responsibility and care of preparing the draughts, etc, and publishing the atlas has fallen, take the liberty to state that in engaging in this enterprise they had no encouragement to suppose that they would receive aid from any source except the sale of the atlas. Knowing by experience that works of this kind can only be successfully published by subscription, they would have been discouraged from the undertaking, had they not been able to contract with parties whom they knew to be energetic and successful solicitors and map compilers, to make a complete recognizant of the entire county. This has been to us an expensive and laborious undertaking, but up to the time of going to press their success warrants the belief that the people of Huron County are sufficiently alive to the value of our work to prevent us from incurring a loss in bringing it out.

THE PUBLISHERS.

HISTORY OF HURON COUNTY

IN GIVING a synopsis of the history of Huron county, many things present themselves to us, which, while they would make very interesting reading matter, are necessarily crowded out for want of space. We shall therefore content ourselves by referring to the condition in which it was found in 1865, with perhaps a few notes upon its more early history, and follow up the changes that have taken place, as nearly as may be, from the year 1865 up to the present time. Avoiding dry statistics as much as possible, we will endeavor to give all the facts that will be of interest to the public, in the most concise form compatible with an intelligent understanding of the past and present status of the county.

Huron county is situated at, or rather forms, what is popularly called the end of the "Thumb" of Michigan. The lower peninsula resembles, in rough outline, a human hand, the fingers extended and held close, while the thumb is somewhat separated, forming an acute angle with the line of the forefinger; hence the name. In 1865 the county was only known as a lumbering region and although farming was carried on in a small way at points along the borders, the most sanguine never dreamed of the wondrous agricultural changes that were destined to take place in the few short years that were to follow. Sand Beach was one of the first township to organize. The exact date cannot be ascertained, but it was before the county was set off, and is generally supposed to be about the year '54. One by one, from the early settlement, the townships have been set off and organized, until they are now all complete, and number twenty-seven, having an area of 480,000 acres. The entire county is well watered by living streams of pure water, most noticeable among which are the Pinnebog and Pigeon rivers, New River, Willow Creek and many smaller streams, with their main branches and smaller tributaries. On the above named stream, in the early days of the county, were floated down to the shore towns the annual crop of choice white pine saw logs, the whole summer being occupied in sawing and shipping the lumber thus freighted down the streams in early spring. Thus the great wealth of the pine forests which gave ample employment to all the people, was, in a great measure, responsible for the retarded condition of agricultural pursuits, until between 1870 and 1880, when as slowly and as surely as the lumbering business was nearing its end, as surely and with rapid strides did agriculture advance, and land upon which the owners, having shorn it of its valuable timber, refused to pay taxes and had been allowed to go back to the state, was quickly redeemed. Every homestead was taken; the state lands and school lands were taken; a new industry upon a stable basis was inaugurated; state and other roads were opened out, and the dawn of agricultural prosperity made its appearance.

Huron county was organized in 1860, before which time it was known as one great big township, the township of Huron, and formed a part of Sanilac county. Lexington was the county seat, and there all the records were kept. In 1861 the first court house was built at Sand Beach. The Huron county records were transcribed at Lexington and removed to Sand Beach the same year. The first county officers were as follows: Wesley Armstrong, Sheriff; Samuel Lawder, Treasurer; R. W. Irwin, Clerk; C. H. Gallup, Pros. Attorney; Levi Bonnel, Probate Judge. In the month of Sept., 1864, a disastrous fire swept over the eastern part of the county, obliterating the village of Sand Beach, destroying among other valuables, all the records in the clerk's office, and a part of the records in the Register of Deeds office.

The following month, at a session of the board of supervisors the location of the county seat was changed to Port Austin, and the action was ratified by the electors at the next spring election. There were two very important reasons for deciding on Port Austin as a site. First, it was the largest and best village in the county at the time. Second, the village gave the use of a suitable building for a period of ten years, free of all expense. It soon became patent to all, however, that the accommodations thus afforded were insufficient, and the increasing business, brought about by the steady and rapid development of the county, demanded larger and more commodious buildings, and in 1872 the board of supervisors voted a tax of \$12,000.00, subject to the approval of the people, with which to erect the same.

At the same time the question of changing the location of the county seat arose, and after many discussions pro and con, it was finally located at Bad Axe, where it will in all probability ever remain. The most important of the many reasons given for making the change was, that Bad Axe is the geographical center of the county.

COAST, SCENERY AND RESORTS.—Huron county is surrounded by water, except upon one side, its southern boundary line, which is formed by Sanilac and Tuscola counties. It has about 100 miles of coast which in some places is a high bluff of clay soil; at others, a beautiful white sandy beach. At many places the overhanging trees almost dip their branches in the water, while at a few points, a high majestic wall of rocks resist the foaming sea.

There are a few places on the coast, which, for their beauty and grandeur, are deserving of special notice.

Wild Fowl Bay, or Bay Port Harbor, is the finest yachting course on the great lakes, with its beautiful islands a short distance from the mainland. This spot, beautiful in its rude, wild nature, has been much improved by the art of man. The placid waters of this beautiful bay, bordered and fringed by overhanging cedars, from a picture in nature truly beautiful to behold, while the great palatial summer hotel, on a high elevation, surrounded by its evergreen groves, is an added charm to the scene. To those, however, who admire the grand and love the beautiful, Point Aux Barques is, perhaps, the most interesting point upon the whole Lake Huron shore. Commencing at about one mile east of Port Austin, a ledge of rocks commences, rising stratum on stratum, as you follow the shore east, for perhaps three-fourths of a mile, then maintaining an average height of about twenty-five feet perpendicular for sixty rods, it turns at right angles and runs another half mile, circling 'round and terminating abruptly upon a plain of beautiful white sand beach that stretches away to the east. In numerous places the face of this wall of rock has been curiously carved by the constant action of the water, until great caves have been formed at many points along its entire length. Some of them are a hundred yards in depth, whose roof is a great arch of solid rock, and whose floor is a part of, and continuous with, the level waters of the lake. When we stop to consider all these natural attractions, not the least among which is a climate that is all that could be desired, it ceases to be a wonder that the county has at present no less than five summer resorts, viz: Bay Port, Sebewaing, Caseville, Port Austin and Sand Beach, all receiving their share of the patronage of those who are seeking a cooler and more congenial clime during the heated season. The first named is perhaps the most widely known, and is a favorite of pleasure-seekers, not only of Michigan, but from many other states.

THE PRESS.—As the compass is to the sailor, so is the newspaper to the people, and today, wherever civilization exists, there will be found the press, exercising its potency for the welfare and best interests of its patrons. The first newspaper published in the county was the *Huron County Reporter*. It was owned and edited by D. R. Joslin, and its first issue appeared in 1862 at Port Austin. Since that time many papers have had a brief existence, but to recount the rise and downfall of them all, would occupy too much space. Suffice it to say, that at the present time the people are supplied with four good, newsy and interesting papers, viz: The Bad Axe Democrat, The Huron Tribune, The Sand Beach Times and The Port Austin Post.

PIONEERS.—In taking up this feature of our sketch, it is with a feeling of regret that we recognize the fact that our space is too limited to make personal mention of the several individuals who have been identified with, and interested in, the development of the resources of Huron county. While it would be of great importance to render a history of pioneer times, full and accurate, from its earliest history down to the present, yet we must forbear. Pioneer life in Huron county finds its parallel in nearly every county in the state, and not the least of all the difficulties the early settlers had to contend with, was the journey from civilization to their forest homes. Many of them came into these primeval forests without a dollar in their pockets, and with but an ax on their shoulders to carve out their fortunes and to build up a country. With brave hearts and undaunted courage they began life, and the broad acres, now under a state of cultiva-

tion, together with the modern frame and brick structures, speak for themselves of the many days of toil and privations, undergone by these sturdy pioneers. Generation after generation come and go like the leaves of the forest, and of all those who came here in their prime and claimed the virgin soil of this county as their heiritage, the number remaining is small indeed who can relate the history of the first days of settlement, and these are rapidly passing to their graves.

WAR RECORD.—So far reaching had been the arms of our civil war, that even this northern wilderness had to yield its quota of "boys in blue", to suppress the great southern giant of maddened and mistaken policy. And nobly did Huron county come to the rescue, and assisted with men and money to maintain intact this great and glorious common wealth. Many a brave fellow "bit the dust" upon a southern battlefield. The Michigan 1st, 3rd, 6th, 23rd and 29th regiments, composed in part of Huron county brain and muscle, did noble service to the north and acquitted themselves with honor upon every battlefield that fell to their lot. A company from Huron county under Capt. Eben R. Ayres, composed a part of the noble 23rd regiment of Michigan, and did honor to the old flag in twenty-three hard fought battles, prominent among which were the battles of Lost Mountain, and the great siege of Atlanta. The 1st and 6th regiments fought at Gettysburg and the Wilderness, and fifty-five other battles, and were present facing the foe when Gen. Lee surrendered at Appomattox court house, Va., April 9th, 1865, and today, many of those who were fortunate enough to return, are found among the prosperous business men of this county, whether in professional, agricultural or merchantile pursuits.

RELIGION.—The first church organized in the county, was at Sebewaing in 1851. It was known as the German Evangelical Lutheran Emanuel church, and was presided over by the Rev. Mr. Auch. It boasted twelve members. The seed thus sown by the man of God, took root and grew, and wherever a school house was built, it was as freely used for religious worship as for secular education. There was no splitting of hairs on points of doctrine or mode of baptism. Those of different denominations and of entirely different creeds united for the common good, and as the people became prosperous and villages were built, the various denominations erected their own places of worship, and today we have many Roman Catholic, Episcopalian, Methodist, Baptist, Lutheran, Presbyterian and some other churches. Many of these own large and beautiful buildings whose spires, domes and turrets point heavenward, showing us not only that we live in a christian community, but pointing out the way to heaven.

EDUCATION.—In educational matters the citizens of this county have been progressive. One of the first things the early settlers turned their attention to, was the education of their posterity, and they soon made the necessary provisions and arrangements, crude and inconvenient though they were, for putting into effect this idea. As the county grew in wealth and population, new districts were formed, the facilities increased, the standard of teachers raised, until today, the same educational advantages are afforded to the children of this county, as to those who live in older, wealthier and more populated counties.

FOREST FIRES.—Among the notable events, or rather disasters, may be mentioned, the great forest fires of 1871 and 1881. These have already become a matter of history, and while we would gladly pass them by and try to forget those truly awful periods in our history, yet we are compelled to refer to them, no matter how painful the task, which only bring sorrow to our hearts by recalling to mind the terrible scenes of widespread death and desolation that met us on every hand. It will be remembered, that in the early times valuable pine timber was found in every township in the county. From 1860 to 1870 a vast amount of this timber was lumbered in various townships, leaving many very large tracts of land, covered with tree tops, refuse timber and rubbish, which, as it dried in the summer seasons, became inviting tinder for the flames. In 1871 the first great fire took place, destroying many infant villages and spreading death and ruin on every hand. The few roads we had were all literally blockaded with fallen timber. The fire kept on eating slowly but surely in every direction in the dry vegetable mold, about the roots of trees still standing, until thousands upon thousands

of acres were thus undermined and fell in a shapeless mass of almost impenetrable windfall. This again was lumbered during the next ten years. The summer of 1881 was very dry; the autumn exceedingly so. The settlers scattered almost all over the county, took advantage of the dry season to clear land. Small fires were burning in numberless places. The winds were steadily from the southwest. The green leaves of trees became curled and dry; the swamps were all dried up; the fires spread but were not alarming, until in September, 1881, the winds blowing a gale, the fires spread with wondrous rapidity, ever widening and leaping onward. Green standing timber was no barrier; what appeared to be green woods an hour before, was now a seething mass of flame. With few exceptions, it may be said the entire southern and eastern three-fourths of the county was a mass of burning ruins. For the sturdy settler there was no escape. Smothering in smoke that hid them from the light of day, menaced by leaping flames on all sides 'round; they fought the fire with the desperation of maniacs, and many a brave fellow laid down his life in the effort to save his wife and little ones from the devouring element. The tinder consumed, the immediate danger was passed. Then followed in panoramic succession, scenes too terrible to contemplate. The destitution, nakedness and want of those whose lives were spared; the object misery of the bereaved; the suffering of those who escaped through a sea of flaming forest, the skin blistered and slipping from patches on their bodies and limbs. On all sides 'round might be seen the carcasses of the poor cattle, that, frightened and maddened by the flames, ran bellowing into the swamps, until they sank and roasted where they fell. Such were the scenes to be witnessed in Huron County during that memorable September of 1881. Whole villages had been swept away. Bad Axe, the county seat, was literally wiped out in '71 and again in '81. Sand Beach, that was destroyed in 1864, when the county records were burned, was badly scorched in '71. Farm buildings nearly all destroyed, orchards burned and beautiful farms laid waste. Sickness from exposure to cold and from drinking the water polluted by dead animals, soon appeared among us. Our drugs and medicines were lost in the common conflagration; our danger was imminent. Our distress was soon known to the world; our cries reached the ear of the people; the great big American heart was touched, and the storehouses of the nation were thrown open. Provisions and clothing, drugs and medicines, farm implements and seeds, lumber and even money flowed in to us, and many a fainting heart took courage. Like the fabled *Phoenix*, we arose from our ashes, and in the short space of nine years, our villages, farm houses and barns, have been rebuilt, only by larger and better buildings and five times as many of them, and but little is now left to remind us of the terrible scenes we passed through.

RAILWAYS.—Railroad men seeing the great future of this 'thumb' of Michigan, have pushed competing lines of railway into and through the county in various directions. The first of these was the P. H. & N. W., which, though rough and unfinished, got the first passenger train through to Port Austin late in the fall of 1882. The road runs through the following townships: Port Austin, Dwight, Lincoln, Verona and Bingham. A branch also runs through Sherman and Sand Beach terminating at the Harbor of Refuge, and the first train over this division was in the fall of 1880, two years before trains were run to Port Austin. This road was recently purchased by the F. & P. M. Co. and is now operated by them. The P. O. & N. R. R., running from Pontiac via Oxford to Caseville, is a standard gauge and was completed in 1883. The S. T. & H. R. R. started from East Saginaw in 1881 and was completed as far as Sebawaing in 1882. To the late Jesse Hoyt, of New York, is due the honor and praise of projecting and pushing this line of road, though unfortunately he did not live to see its completion. In 1886 W. L.

Webber, the president of the company, extended the road to Bad Axe, its present terminus. It is generally understood that the company purposes extending the line through to Sand Beach, sometime in the near future. Thus it will be seen that in the short space of four years no less than three railway lines, with their branches, were pushed in the county, tapping the shore at five different points, viz: Sebawaing, Bay Port, Port Austin, Caseville and Sand Beach, and two lines reaching Bad Axe, the county seat. These roads are all well patronized, and secure to the people telegraphic communication and rapid transportation, the daily news of the nation, and in short, all the privileges and advantages, comforts, blessings and luxuries of an advanced civilization. Nor is this all. Another railroad company has lately been organized and seven miles of road completed. It will be known as the Saginaw Valley and Lake Huron R. R. It will intersect the P. O. & N. at Owendale, and is intended to reach some point on the shore, probably Sand Beach. Mr. Owen, of Owendale, is largely interested in this road. He is an energetic and enterprising man and little fear may be entertained as to the completion of all he undertakes.

INDUSTRIES.—Prominent among the industries of the county may be mentioned the manufacture of grindstone and scythe stones, and the quarrying out of building stone at Grindstone City. The location of these valuable quarries was discovered by Capt. A. G. Peer about the year 1850, and he was the first to venture his capital in opening up what has since proved to be the most valuable stone for wet grinding found in the United States. The business, however, was conducted upon a small scale. Then another quarry was commenced by L. B. Johnson. Both quarries soon passed into other hands, Robert Wallace at the head of one, Cooper and Crevey owners and managers of the other. These men rapidly increased the facilities, enlarged the business, multiplied the out-put, and the Lake Huron blue stone became known in every market in the United States and some foreign countries. So great has been the demand for the stone, that ever increasing facilities have been demanded to supply the multiplicity of orders, sent in for every size of grindstone, from the five pound kitchen stone up to those used in large factories and weighing as high as 7800 pounds. To give an idea of the mammoth proportions to which this comparatively infant industry has already reached, we state on authority that in the year 1888 about 8,000 tons of grindstones and 10,000 gross of scythe stones were manufactured, while about 1400 cords of choice building stone was taken from the quarries of the two companies then in operation, viz: The Cleveland Stone Co. managed by George Robertson, a practical and energetic man; and the Lake Huron Stone Co., still controlled by Robert Wallace aforesaid. Within the last few years another quarry has been opened out near Bay Port, on Saginaw Bay, and called by that name, to-wit: The Bay Port Quarries. Here limestone and the finest building stone are found in abundance. About 100 men are employed in the summer season, in the lifting of rock burning of lime, getting out building stone and shipping the same via the S. T. & H. R. R. to Saginaw and other cities. This great enterprise set on foot and backed up by the capital of the far-seeing W. L. Webber, of Saginaw, promises to be equally stable, equally profitable, and in time equally beneficial to the farmers and laborers of this county as the great quarries at Grindstone city already mentioned. From this quarry in the last year was shipped no less than 5000 cords of building stone, over 48,000 bushels of lime and 10,000 cubic yards of crushed stone for paving purposes. And so great is the demand, that probably twice that amount will be shipped the coming season.

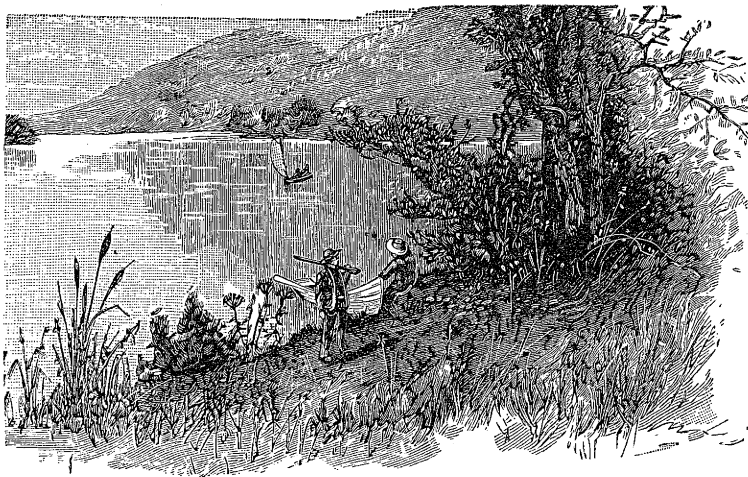

CEMENT.—Great as the above industries may seem in a county as new as Huron, there are yet to be developed more wonderful sources of wealth. The immense cement beds in the township

of Meade are said to contain an inexhaustible supply of the very best cement. It is equalled only by the famous Portland cement for all manner of concrete work, the manufacture of Paris plaster, land plaster and the thousand and one uses to which the above may be applied. It is estimated that when this business is opened up, 1000 bbls. will be the daily output, and several hundred men will be employed in and about the works.

COAL.—Within the last six months, the great coal fields of Sebawaing, near the southwest corner of the county, bordering on Saginaw Bay, have been thoroughly tested and proven by experienced experts to contain a very superior grade of bituminous coal. It is rated at 8 per cent. better than the best Ohio coal, to-wit: The Hocking Valley, so much used in Michigan and other states at the present time for heating and all kinds of manufacturing purposes. This stratum of coal is found at an average depth of 85 feet; the vein is about four feet thick, and is known to exist over a space of 1200 acres. Two companies have been organized, and each have put down a shaft. They have also leased large tracts of land in the immediate vicinity, showing confidence in the greatness and extent of the coal deposit. It is expected to yield 6000 tons to the acre, which will be worth \$2.50 per ton at the mines. When both mines are fully developed, about 1000 men will be employed in the coal trade alone.

SALT.—One of the most important industries of the county is the manufacture of salt. The first well in the county was sunk at Port Austin in 1863, and the solar system was used, which however proved a failure. Iron kettles were next introduced, and these in turn were superseded by the pan system which is still in vogue. Many blocks have been started in various parts of the county though some have been abandoned. The wells reach a depth of from 700 feet to 1850 feet, and the brine ranges from 84 to 88 degrees salinometer. The output from each of the blocks runs from 30,000 to 60,000 barrels annually. There are two qualities made, first and second, the latter being used as a fertilizer; but so thorough has the system become that only about two per cent. of the entire production is second quality. Notwithstanding the fact that some of the blocks are not now running, the industry is increasing each year in importance.

AGRICULTURE.—Last, and by far the greatest industry, however, is that of agriculture. Situated, as Huron county is, in the great grain and grass belt of the United States, with a fertility of soil unsurpassed by any county in the state, with a climate moderated and regulated by the waters of the greatest of the great lakes, it is not hard to conceive that agriculture must of necessity take first rank, and such already is the established fact. Notwithstanding that we have untold wealth in grindstone, building stone, limestone, cement beds, coal fields, and underneath all a great basin of the purest salt in the world, yet farming alone employs more men, feeds more people and is the source of twenty times more wealth than all the other industries combined. Let us now for a moment look back to the year of the war and the next decade. View the limitless forests through which crooked the lumbering road, in fact the only road known in those days, with here and there a settler in his rude log hut, and let us note the wondrous evolution from the primeval forest to the well tilled farms with their broad acres of cleared land, the fine buildings and large orchards, the herds of cattle, sheep and general stock, with peace and plenty and general prosperity on every hand. Owing to the rapid improvements continually going on, we find it impossible to give an estimate of the number of acres cleared, the tens of thousands of horses, cattle, sheep and hogs, the millions of bushels of grain and root crops raised in Huron county in a single year. And although it is a fact manifest to our senses, it seems impossible that all these wonderful agricultural changes, this progress and thrift could have been brought about in the short space of fifteen or twenty years.

HURON COUNTY BUSINESS CARDS.

<p>HELENA BUSINESS CARDS.</p> <p>IMPORTED YOUNG CROWN IMPERIAL ROADSTER Is a dark brown horse, weighing 1,200 pounds, stands 16 hands high, with an excellent action and temper. He was bred by Archie McLean, Erin, Wellington Co., Ontario; sired by the far-famed and justly celebrated stallion, CROWN IMPERIAL, registered in Volume 5 Wallace's Trotting Register. Farmers, come and inspect him before breeding your mares. It costs no more to raise a colt worth \$500 or \$1,000 than it does to raise one worth \$100. SELLER & SONS, Owners, P. O. GUIDE TO ILLINOIS.

EXPLANATION.

To find the location of any town on this map, refer to the figure and letter on the right of the name, which correspond to the figures on the top, and the letters on the right-hand side of the map, and in the angle or square where these meet will be found the location of the town sought for. A * before a name denotes that the population of the whole township is given. Names in *italics* are county seats.

EXPLANATION.

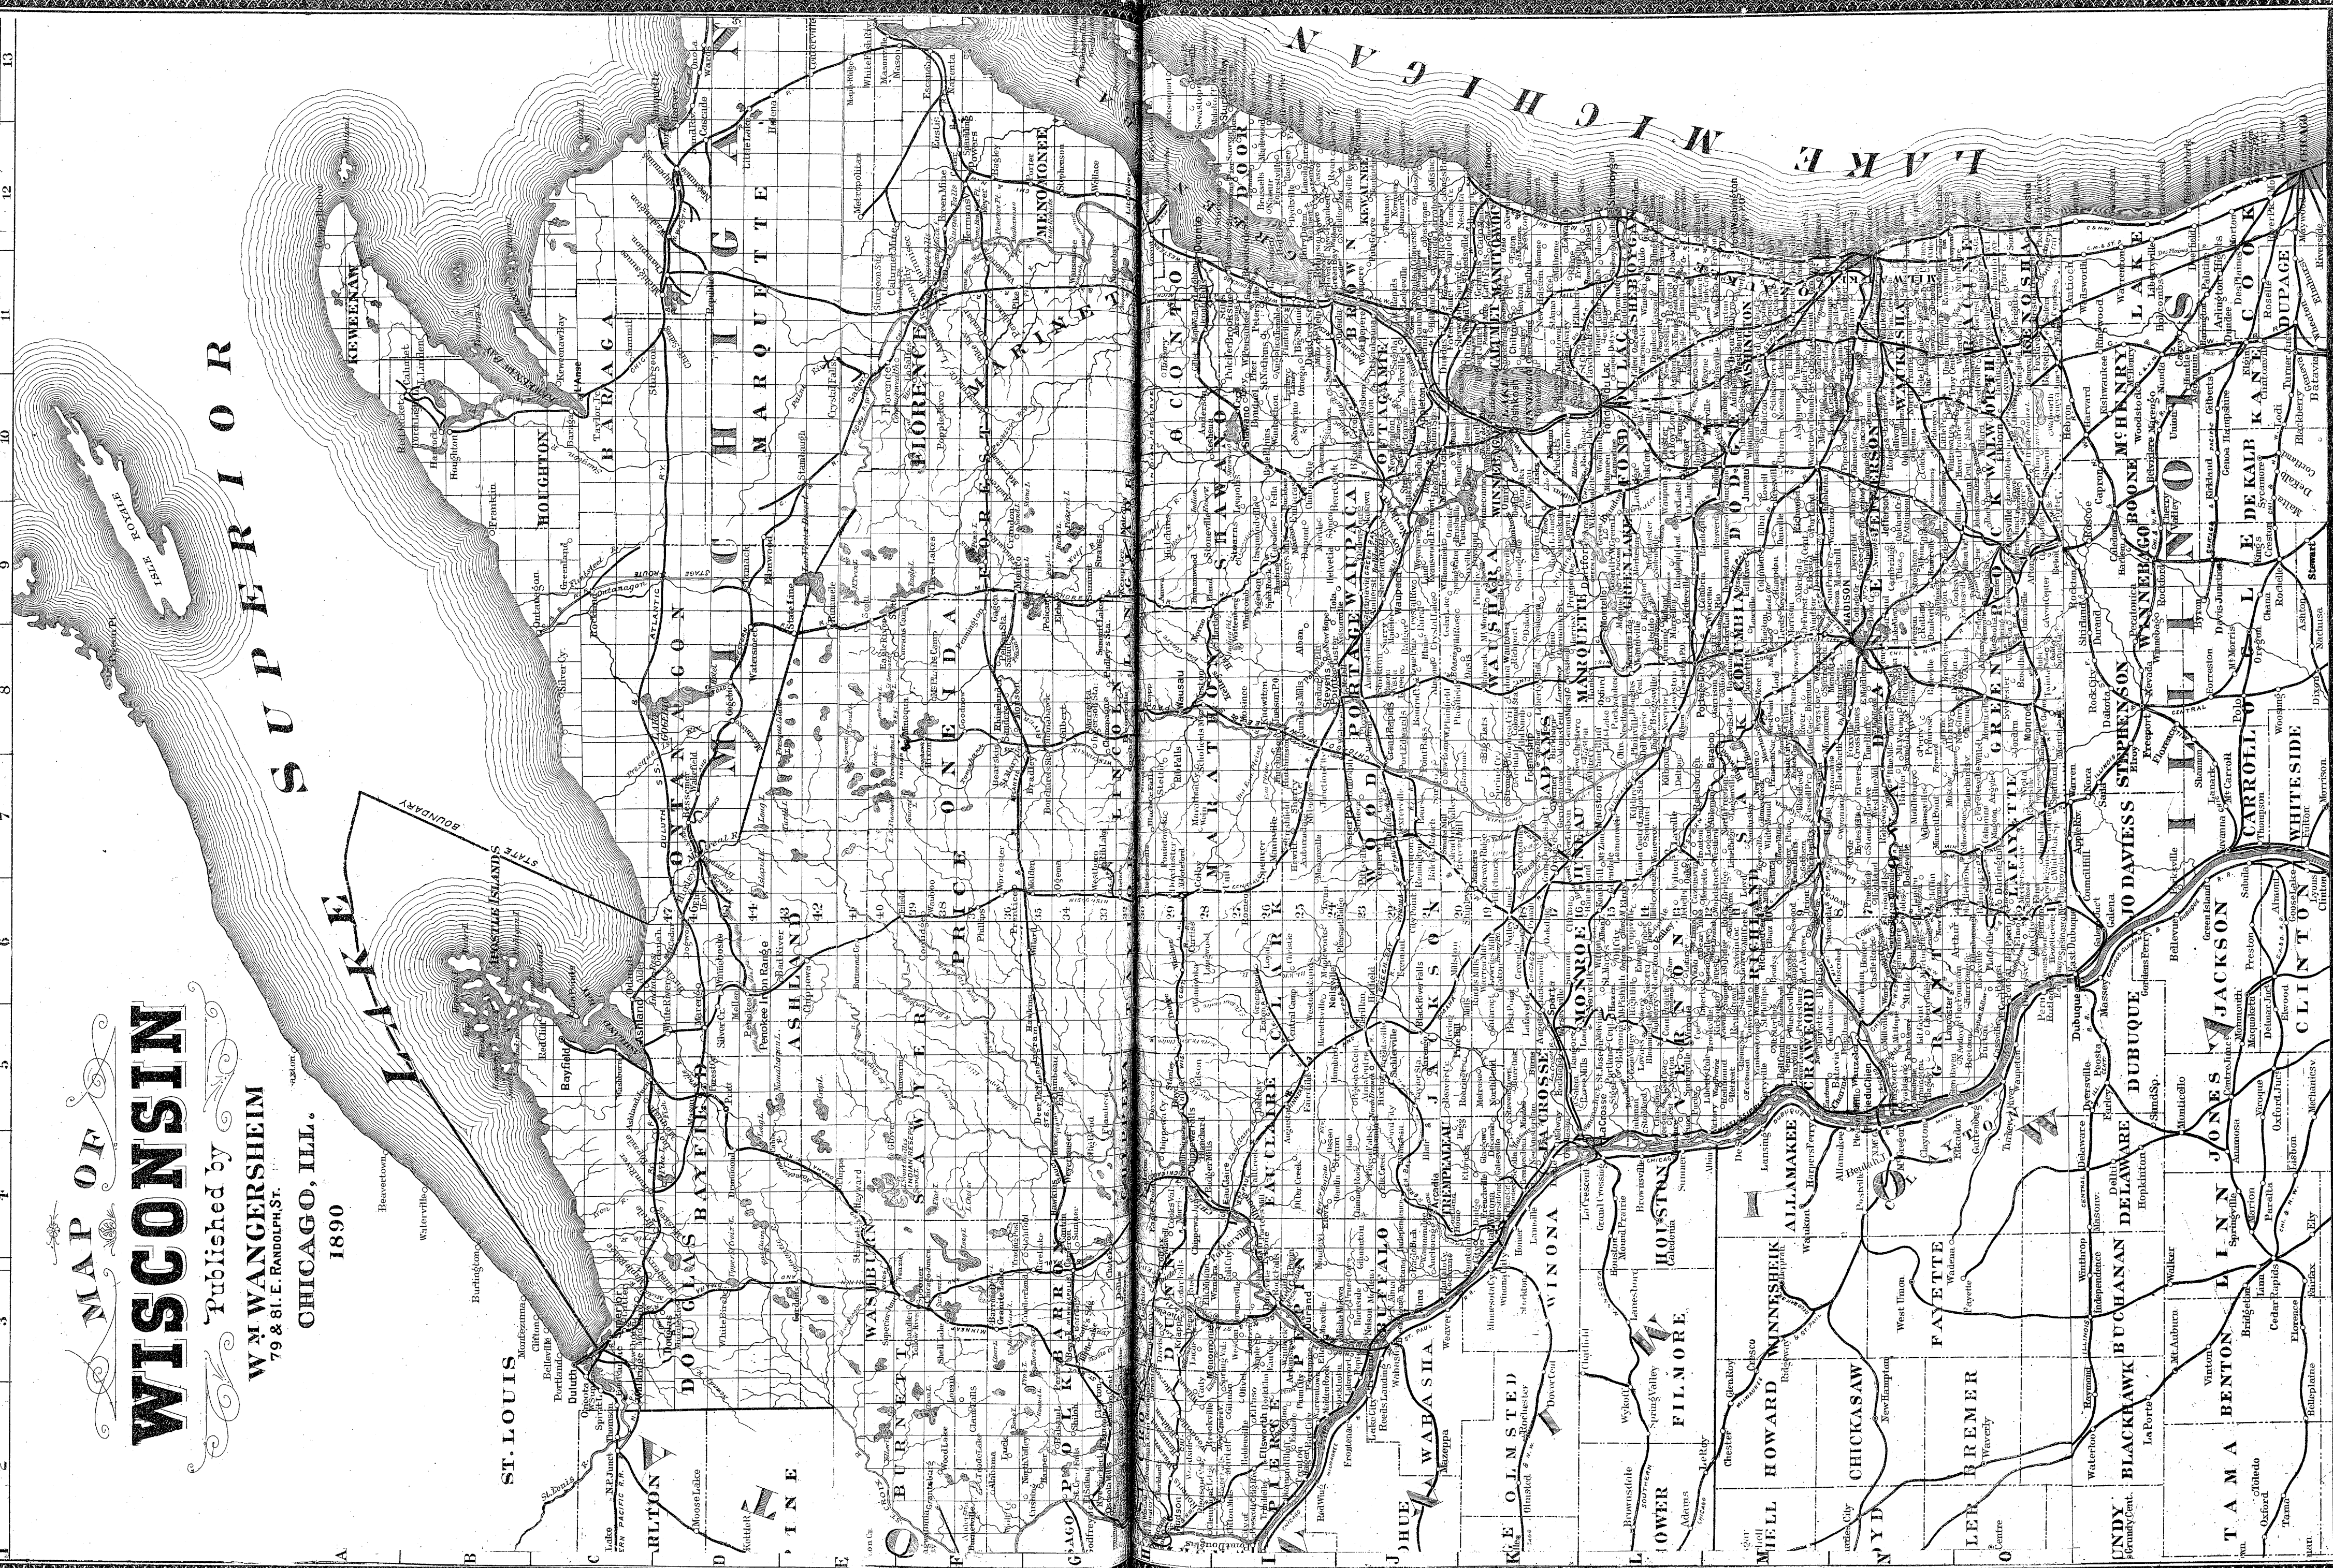

To find the location of any town on this map, refer to the figure and letter on the right of the name, which correspond to the figures on the top, and the letters on the right-hand side of the map, and in the angle or square where these meet will be found the location of the town sought for. A * before a name denotes that the population of the whole *township* is given. Names in *italic* are county seats. In the column marked "*Ry.*" the letters denote the railroad on which the town is situated. See index to railroads at the end.

GUIDE TO DAKOTA.

EXPLANATION.

To find the location of any town on this map, refer to the figure and letter on the right of the name, which correspond to the figures on the top, and the letters on the right-hand side of the map, and in the angle or square where these meet will be found the location of the town sought for. A * before a name denotes that the population of the whole township is given. Names in *italics* are county-seats. Figures immediately following a name denote the population according to the census of 1880.

MAP OF DAKOTA.

PUBLISHED BY W. W. WANGERSHEIM

GOVERNMENT LANDS.

GOVERNMENT LANDS—HOW THEY CAN BE OBTAINED.

Of agricultural public lands there are two classes—the one class at \$1.25 per acre, which is designated as *minimum*, and the other at \$2.50 per acre, or *double minimum*. The latter class consists of tracts embraced within the alternate sections of land reserved to the United States in the acts of Congress making grants within prescribed limits of the lines of railroads, or other works of internal improvements, to aid in the construction thereof, such reserved sections being doubled in price. Congress passed an act, approved June 15, 1880, the third section of which reduces to \$1.25 per acre any such lands, then subject to entry (meaning in this connection ordinary cash entry of offered lands), which were put in market at the enhanced price prior to the 1st of January, 1861. Title may be acquired by purchase at public sale, or by ordinary “private entry,” and by virtue of the pre-emption, homestead, timber culture, and other laws.

BY PURCHASE AT PUBLIC SALE.

This may be done where lands are “offered” at public auction to the highest bidder, either pursuant to proclamation by the President, or public notice given in accordance with directions from the general land office.

BY “PRIVATE ENTRY,” OR LOCATION.

The lands liable to disposal in this manner are those which have been offered at public sale, which were then not sold, and which have not since been reserved or otherwise withdrawn from market.

The applicant will first present a written application to the register for the district in which the land desired is situated, describing the tract he wishes to purchase, giving its area. Thereupon the register, if the tract is vacant, will so certify to the receiver, stating the price, and the applicant must then pay the amount of the purchase-money.

The receiver will then issue his receipt for the money paid, in duplicate, giving to the purchaser a duplicate receipt. The register will then issue his certificate of purchase. At the close of the month the register and receiver will make returns of the sale to the General Land Office, from which, when the proceedings are found regular, a patent or complete title will be issued, and on surrender of the duplicate receipt such patent will be delivered, at the option of the patentee, either by the Commissioner at Washington or by the register at the district land office.

These lands can also be located with land warrants issued under the act of Congress of March 3, 1855, and previous acts, giving public land as a bounty for military services rendered prior to the passage of the acts in former wars of the republic. The bounties given by law for military services in the late civil war were not given in *land*, but in *money*.

Agricultural College scrip and land warrants can be used in locating lands at “private entry,” but when so used are only applicable to lands not mineral, which may be subject to private entry at \$1.25 per acre, and are restricted to a technical “quarter-section”—that is, land embraced by the quarter-section lines indicated on the official plats of survey; or they may be located on a *part* of a quarter-section, where such part is taken as in full for

a quarter; but they cannot be applied to different subdivisions to make an area equivalent to a quarter-section. The manner of proceeding to acquire title with Agricultural College scrip is the same as in cash and warrant cases, the fees to be paid being the same as on warrants. The location of this scrip at private entry is restricted to *three* sections in *each township* of land, and *one million acres* in *any one State*.

It can also be used in payment of pre-emption claims in the same manner and under the same rules and regulations as govern the application to pre-emptions of military land warrants; this, too, without regard to the quantity located in a township or State.

In payment for homesteads commuted under section 2301 of the Revised Statutes, this scrip is also available. The fees required to be paid to both the register and receiver of the land district when lands are located with land warrants is fifty cents to each for the first forty acres and fifty cents each additional for each twenty acres added.

CIRCULAR INSTRUCTIONS TO REGISTERS AND RECEIVERS.

RESIDENCE OF APPLICANT.

1. The applicant *must* in *every case* state in his application his place of *actual residence*, and the *postoffice address* to which notices of contest or other proceedings relative to his entry shall be sent.

SECOND FILINGS AND ENTRIES.

2. A party making a legal filing or entry under any one of the foregoing acts exhausts his right under that act and cannot thereafter make another filing or entry under said act.

ALTERATIONS IN APPLICATIONS.

3. Applications to amend filings or entries should be filed with the Register and Receiver and be by them transmitted for the consideration of this office. Registers and Receivers will not change an entry or filing so as to describe another tract or change a date after the same has been recorded.

RELINQUISHMENTS.

4. Entries and filings made for the purpose of holding the land for speculation and the sale of relinquishments are illegal and fraudulent, and every effort in the power of the Government will be exerted to prevent such frauds and to detect and punish the perpetrators.

5. The first section of the Act of May 14, 1880, provides that when a pre-emption, homestead, or timber-culture claimant shall file a written relinquishment of his claim in the land office, the land covered by such claim shall be held as open to settlement and entry without further action on the part of the Commissioner of the General Land Office.

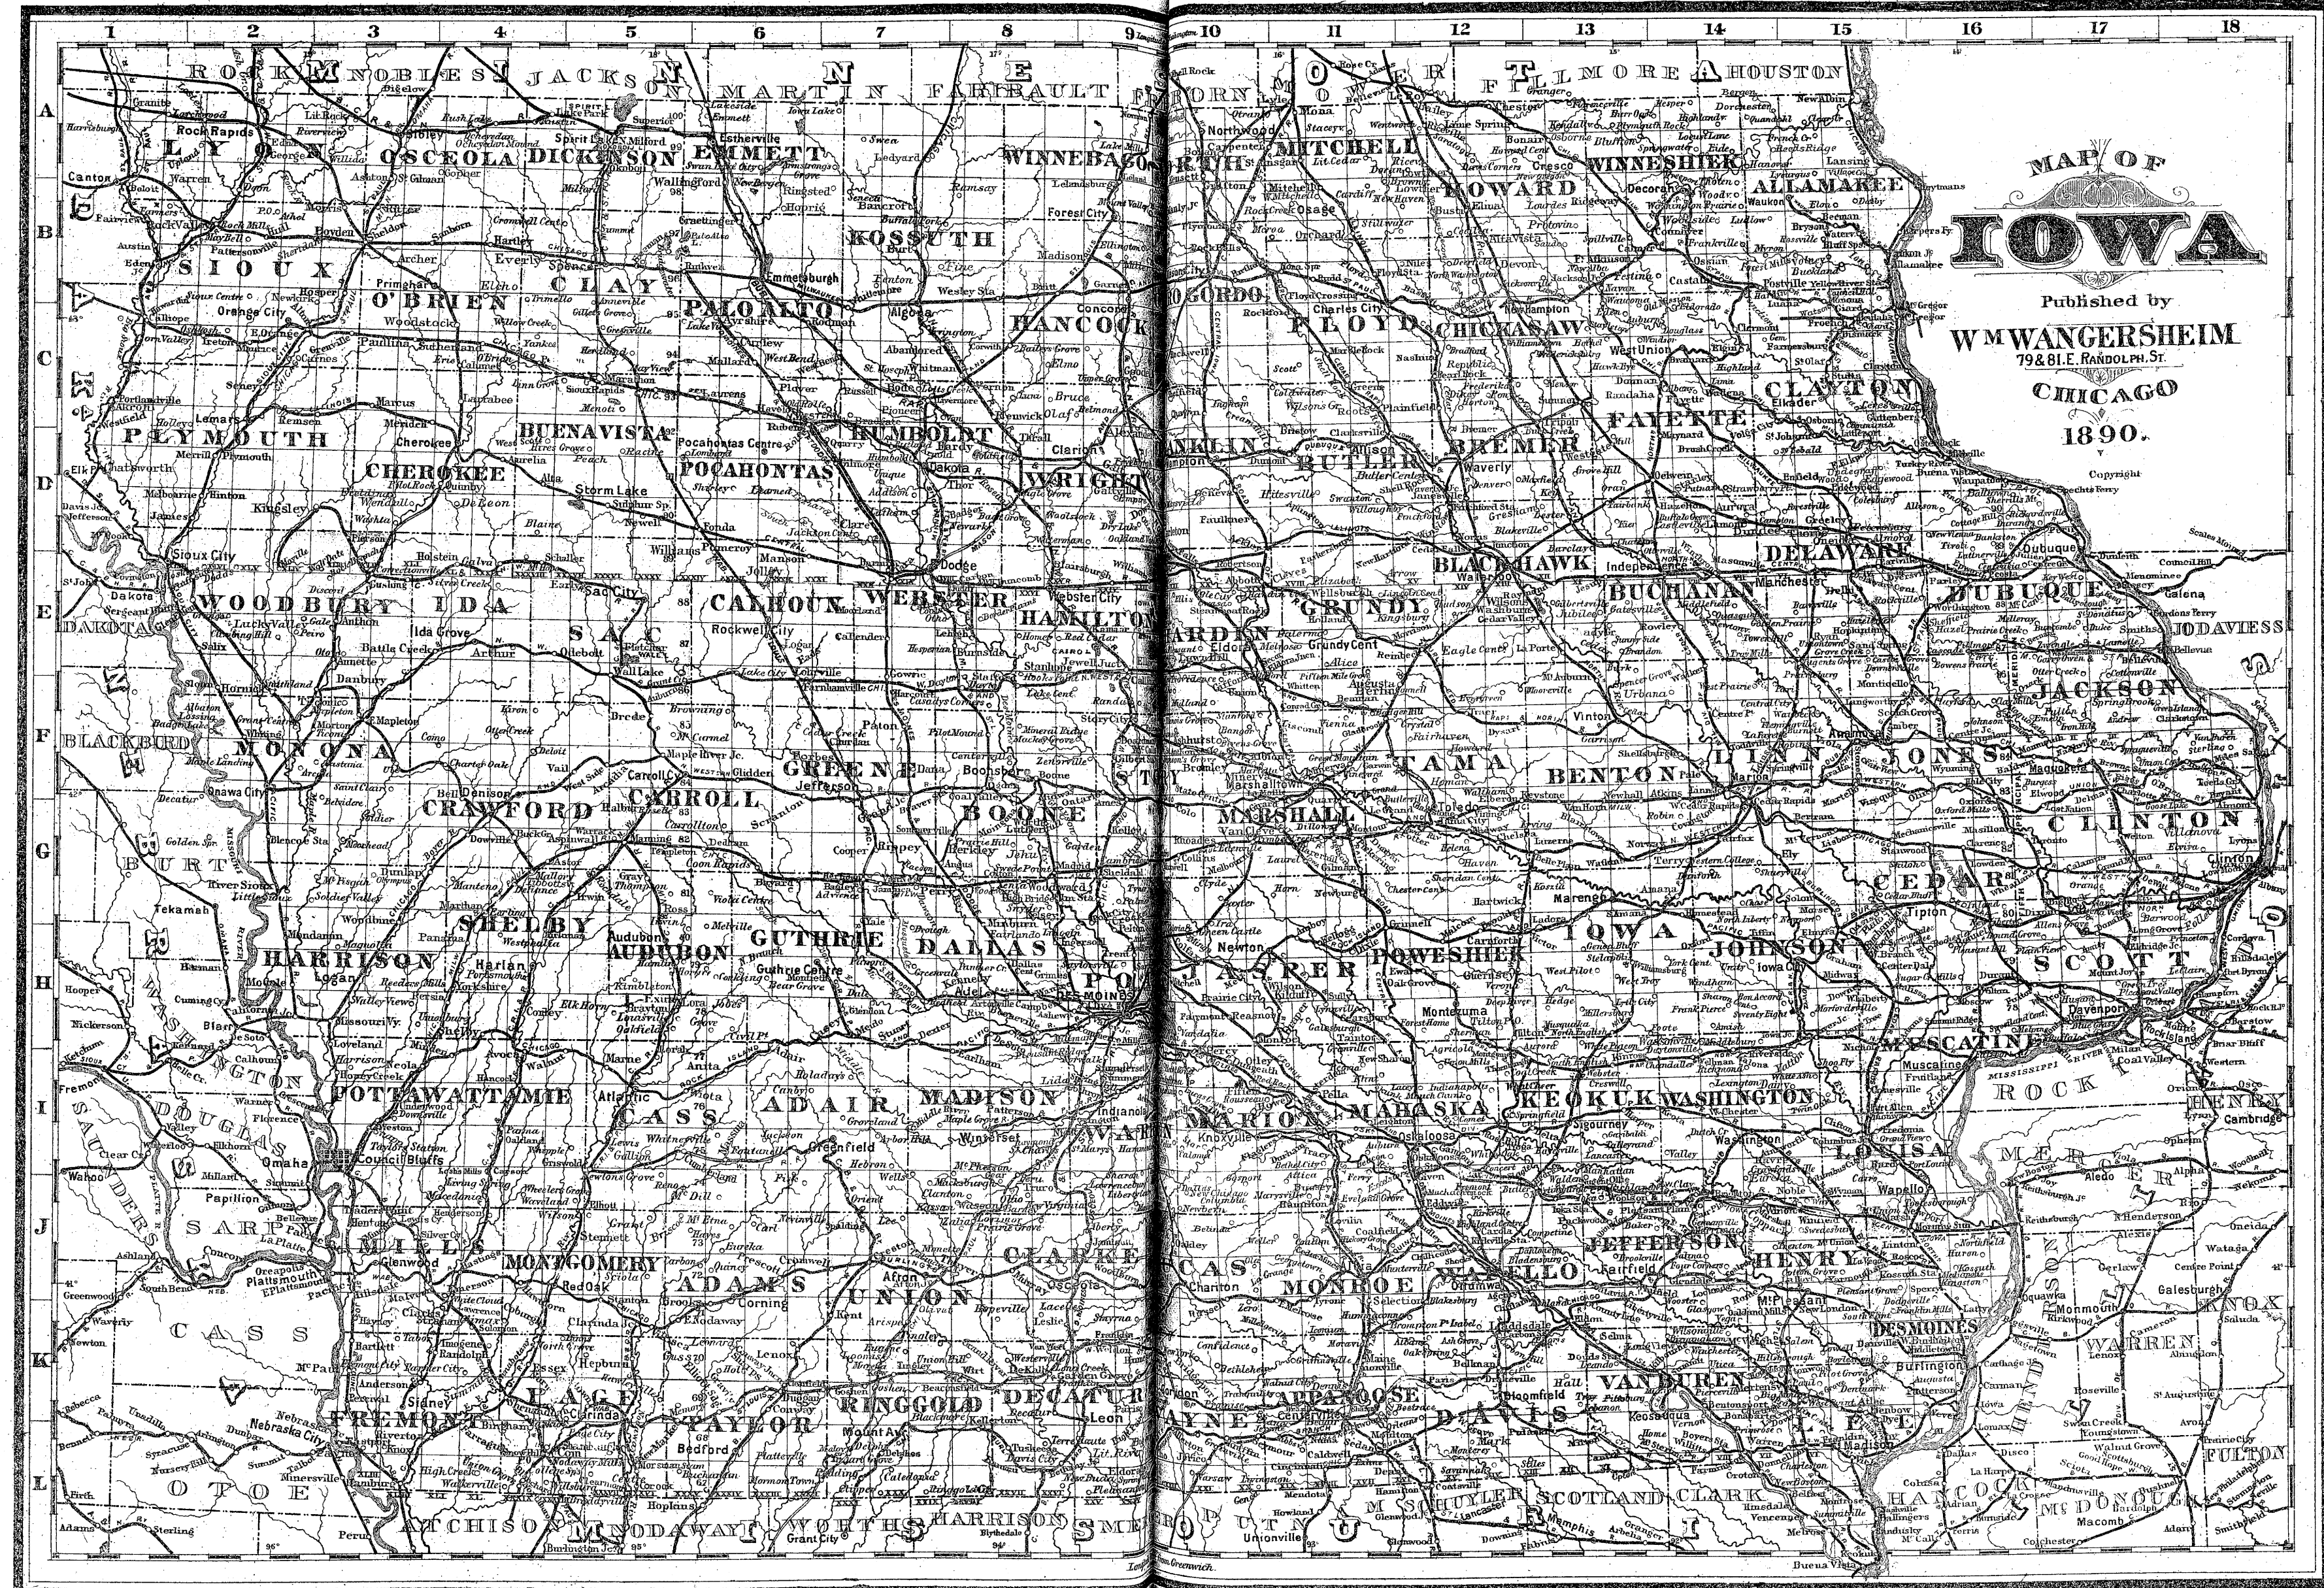

6. This act refers to *bona fide* relinquishments of *bona fide* entries. An entry fraudulent in its inception is not an entry capable of being relinquished. It is an entry to be canceled upon a proper showing of the facts and circumstances of the case, whereupon the land will become subject to proper entry by the first legal applicant.

GUIDE TO IOWA.

EXPLANATION.

To find the location of any town on this map, refer to the figure and letter on the right of the name, which correspond to the figures on the top, and the letters on the right-hand side of the map, and in the angle or square where these meet will be found the location of the town sought for. A * before a name denotes that the population of the whole township is given. Names in *italics* are county seats.

GOVERNMENT LANDS.

7. Purchasers of relinquishments of fraudulent filings or entries should understand that they purchase at their own risk, so far as the United States is concerned, and must seek their own remedies under local laws against those who, by imposing such relinquishments upon them, have obtained their money without valuable consideration.

SETTLERS ON UNSURVEYED LANDS.

8. Homestead and pre-emption settlers on unsurveyed lands are allowed three months after the filing of the township plat of survey within which to put their claims on record. Accordingly no party will be permitted to make *final proof* in any case until after the expiration of said three months.

THE HOMESTEAD LAWS.

9. Homestead entries can be made for not more than one quarter section, or 160 acres of land.

10. The land office fees and commissions, *payable when application is made*, are as follows:

In Alabama, Arkansas, Dakota, Florida, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, and Nebraska—

Land at \$2.50 per acre.

For 160 acres.....	\$18.00
For 80 acres.....	9.00
For 40 acres.....	7.00

Land at \$1.25 per acre.

For 160 acres.....	\$14.00
For 80 acres.....	7.00
For 40 acres.....	6.00

In Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming—

Land at \$2.50 per acre.

For 160 acres.....	\$22.00
For 80 acres.....	11.00
For 40 acres.....	8.00

Land at \$1.25 per acre.

For 160 acres.....	\$16.00
For 80 acres.....	8.00
For 40 acres.....	6.50

11. When a person desires to enter a tract of land upon which he has *not established a residence and made improvements*, he must appear personally at the district land office and present his application, and must make the required affidavits before the Register and Receiver.

12. He must then establish his actual residence (in a house) upon the land within six months from date of entry, and must reside upon the land continuously for the period prescribed by law.

13. In the case of a single person, the actual residence must be established within the same time, and must be continuously and actually maintained for the same period.

14. The homestead affidavit can be made before the clerk of the county court only in cases where the family of the applicant, or some member thereof, is *actually residing* on the land which he desires to enter, and on which he has made *bona fide* improvement and settlement, and when he is prevented by reason of distance, bodily infirmity, or other good cause, from personal attendance at the district land office.

15. In such cases the applicant must state in a supplemental affidavit the facts of such settlement, improvement and residence; what acts of settlement have been performed, and when made; the nature, extent, and value of the improvements; what member or members of his family are residing on the land, and the length of time such residence has been maintained, and the cause, specifically, why the applicant cannot appear at the local office.

16. A false oath taken before a clerk of a court is perjury, the same as if taken before the Register or Receiver.

17. The period of actual inhabitancy, improvement and cultivation required under the homestead law is five years.

18. In case of the death of the homestead party, before making final proof, the widow succeeds to the homestead right.

19. In case of the death of both father and mother, the right and fee inure to the minor children, if any.

20. A homestead right cannot be devised away from the widow or minor children.

SOLDIERS' HOMESTEADS.

21. A union soldier or sailor of the late war is entitled to a deduction from the five years of the length of time (not exceeding four years) of his military service. But the soldier (or his widow, as the case may be) must actually reside on the land at least one year before final proof can be made.

22. In case of the death of the soldier, and the death or re-marriage of the widow, the minor children of the soldier, by a duly appointed guardian, are entitled to the privileges of the father.

23. Neither the guardian nor the minor children are required to reside upon the land, but the same must be cultivated and improved for the period of time during which the father would have been required to reside upon the tract.

24. The soldier may file a declaratory statement for a tract of land which he intends to enter under the homestead laws. The fee is \$2, except in the Pacific States and Territories, where the fee is \$3.

25. This statement may be filed either personally or by an agent, and the soldier is thereafter allowed six months within which to make his entry and commence his settlement and improvement.

26. The entry can be made only by the soldier in person at the local land office, and he must commence his settlement on the land within six months after his filing, and must continue to reside on the land and cultivate it for such period as, added to his military service, will make five years. But he must actually reside upon the land at least one year, whatever may have been the period of his military service.

27. *Entries* cannot be made for a soldier by an agent or attorney.

28. After a declaratory statement has once been filed, whether by an agent or otherwise, the soldier cannot file again. His rights are exhausted by the first filing, and if he does not, within six months, make his personal entry at the land office and commence his settlement as required by law, he obtains no right to the land.

29. A soldier's homestead declaratory statement for a tract of land does not prevent anybody else from making an entry of the same land, subject to such right as the soldier may acquire by virtue of actual residence on the land and full compliance with law. If the soldier does not establish his residence on the tract as required, the next comer may take the land.

30. Soldiers are not entitled to land, nor to bounty land warrants, for their military service in the late war, nor can title to land be obtained for them by agents or attorneys. All representations to the contrary are false, and soldiers and sailors are warned against imposition by parties who offer to locate land for them, or to sell their rights.

FINAL PROOF.

31. A settler desiring to make final proof must file with the Register of the proper land office a written notice, in the prescribed form, of his intention to do so, which notice will be published by the Register in a newspaper to be by him designated as nearest the land, once a week for six weeks, at the applicant's expense.

32. Applicants should commence to make their proofs in sufficient time so that the same may be completed and filed in the local office within the statutory period of seven years from date of entry.

33. The final affidavits and proof should be made before the Register or Receiver, but may be made before the judge, or, in his absence, before the

GUIDE TO MISSOURI.

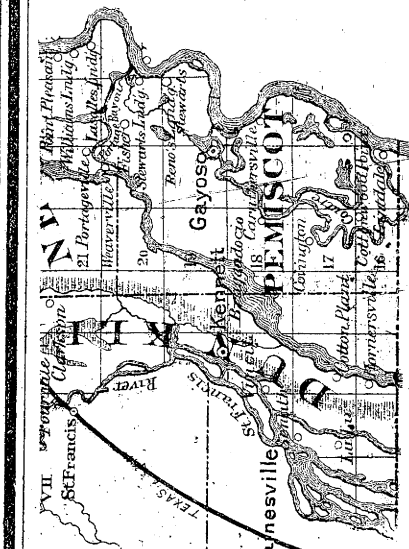

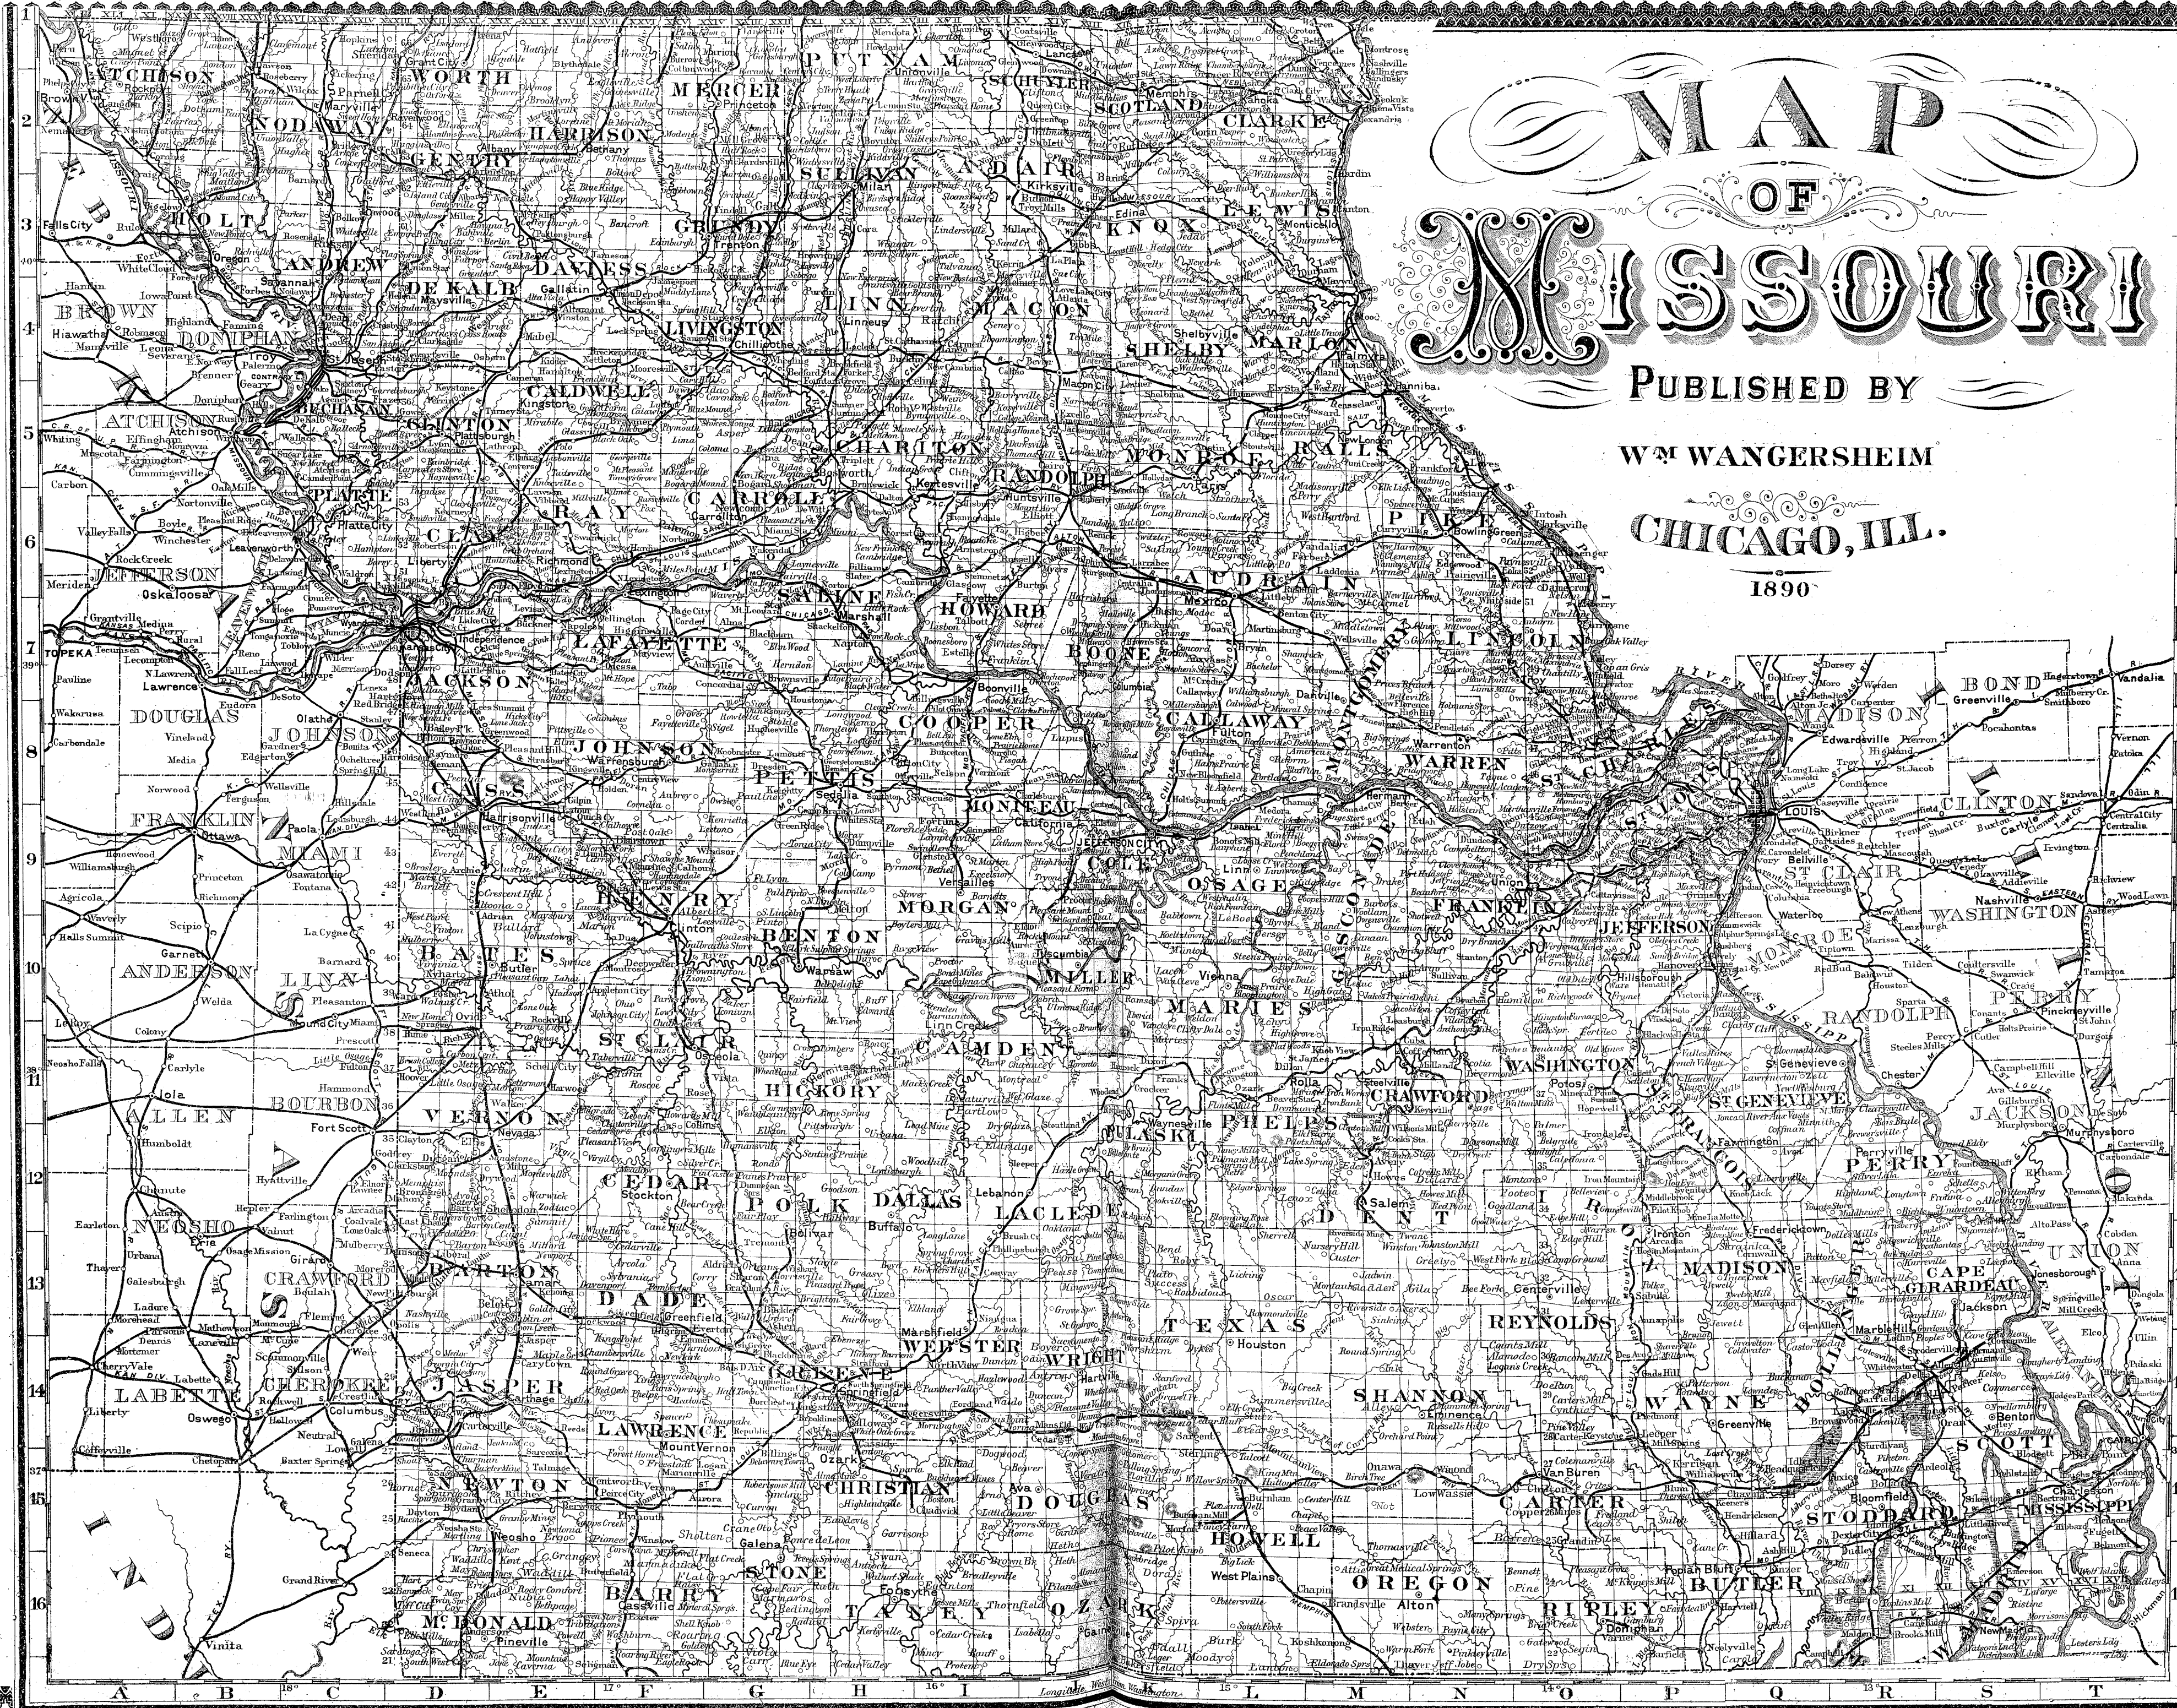

EXPLANATION.

To find the location of any town on this map, refer to the figure and letter on the right of the name, which correspond to the figures on the top, and the letters on the right-hand side of the map, and in the angle or square where these meet will be found the location of the town sought for. A * before a name denotes that the population of the whole township is given. Names in *italics* are county seats.

GUIDE TO MONTANA.

EXPLANATION.

To find the location of any town on this map, refer to the figure and letter on the right of the name, which correspond to the figures on the top, and the letters on the right-hand side of the map, and in the angle or square where these meet will be found the location of the town sought for. A * before a name denotes that the population of the whole *township* is given. Names in *italic* are county seats.

[illegible]

GOVERNMENT LANDS.

clerk, or a court of record in the county and State, district, or Territory, in which the land is situated. If in an unorganized county the proof may be made in a similar manner in any adjacent county in the same State or Territory.

34. When proof is made before the county officers mentioned, the same must be transmitted by the judge or clerk of the court to the Register and Receiver, together with the same fees and commissions that the land officers would have been entitled to receive if the proof had been made before them and the testimony reduced to writing by them.

35. The land office commissions, payable at time of making final proof, are as follows:

In Alabama, Arkansas, Dakota, Florida, Iowa, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri and Nebraska—

Land at \$2.50 per acre.

For 160 acres.....	\$8.00
For 80 acres.....	4.00
For 40 acres.....	2.00

Land at \$1.25 per acre.

For 160 acres.....	\$4.00
For 80 acres.....	2.00
For 40 acres.....	1.00

In Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming—

Land at \$2.50 per acre.

For 160 acres.....	\$12.00
For 80 acres.....	6.00
For 40 acres.....	3.00

Land at \$1.25 per acre.

For 160 acres.....	\$6.00
For 80 acres.....	3.00
For 40 acres.....	1.50

36. The fees for reducing testimony to writing in making final proof are, in the former States, 15 cents, and in the latter States and Territories, 22½ cents for each 100 words. No other land office fees than those stated in this circular are payable or allowable in homestead cases.

COMMUTED HOMESTEADS.

37. Homestead entries can be commuted to cash only after actual inhabitancy of the land by the homestead party, and his improvement and cultivation of it for a period of not less than six months.

38. A person who commutes a homestead entry cannot move from the tract and settle upon other public land in the same State or Territory as a pre-emptor.

39. Proof of settlement and cultivation for the prescribed period is to be made in the same manner as in pre-emption cases.

40. A person commuting a homestead entry when he has not actually resided upon the land and improved and cultivated it as required by law, *forfeits all right to the land and to the purchase money paid*, and in addition thereto renders himself liable to criminal prosecution.

THE PRE-EMPTION LAW.

41. The qualifications required of a pre-emptor are that he (or she) shall be a citizen of the United States (or have declared an intention to become such); over 21 years of age or the head of a family; an actual inhabitant of the tract claimed; and not be the proprietor of 320 acres of land in any State or Territory.

42. A person who has removed from land of his own to reside on public land in the same State or Territory, or who has previously exercised his pre-emption right, is not a qualified pre-emptor.

43. Lands included in any reservation, or within the limits of an incorporated town, or selected as the site of a city or town, or actually settled and

occupied for purposes of trade and business and not for agriculture, or on which there are any known salines or minerals, are not subject to pre-emption.

44. If the land is surveyed, but has not been "offered," the declaratory statement must be filed within three months from date of settlement. If upon "offered" land, the filing must be made within thirty days.

45. If the land is unsurveyed at the time of settlement, the declaratory statement must be filed within three months after the date of filing the township plat in the local office.

46. Failure to file a declaratory statement within the time prescribed makes the land liable to the claim of an adverse settler who does file notice of his intention at the proper time.

47. The land office fee for filing a declaratory statement is \$2, except in the Pacific States and Territories, where the fee is \$3.

48. A pre-emption filing can be made only by an actual settler on the land. A filing without settlement is illegal, and no rights are acquired thereby.

49. The existence of a pre-emption filing on a tract of land does not prevent another filing to be made of the same land, subject to any valid rights acquired by virtue of the former filing and actual settlement, if any.

50. On *offered* lands proof and payment must be made within twelve months from date of settlement.

51. If the land is *unoffered*, proof and payment may be made within thirty-three months from date of settlement.

52. A failure to make proof and payment as prescribed by law, renders the land subject to appropriation by the first legal applicant.

53. The requirements of actual inhabitancy and improvement must be observed as strictly under the pre-emption law as under the homestead law.

54. Failure to inhabit and improve the land in good faith, as required by law, renders the claim subject to contest and the entry to investigation and cancellation.

55. Final proof in pre-emption cases must be made to the satisfaction of the Register and Receiver, whose decision, as in other cases, is subject to examination and review by this office.

56. Publication of notice to make proof is required as in homestead cases.

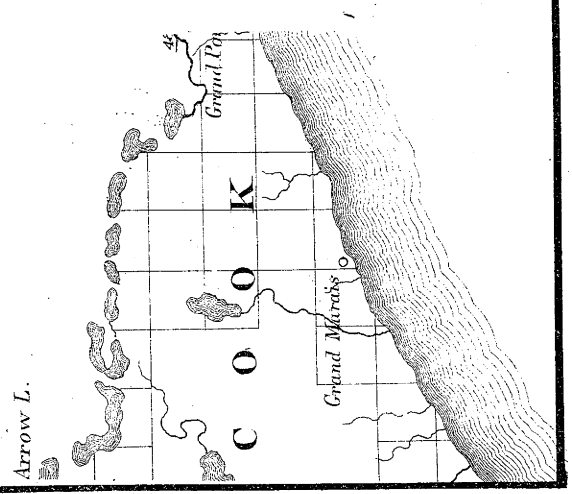

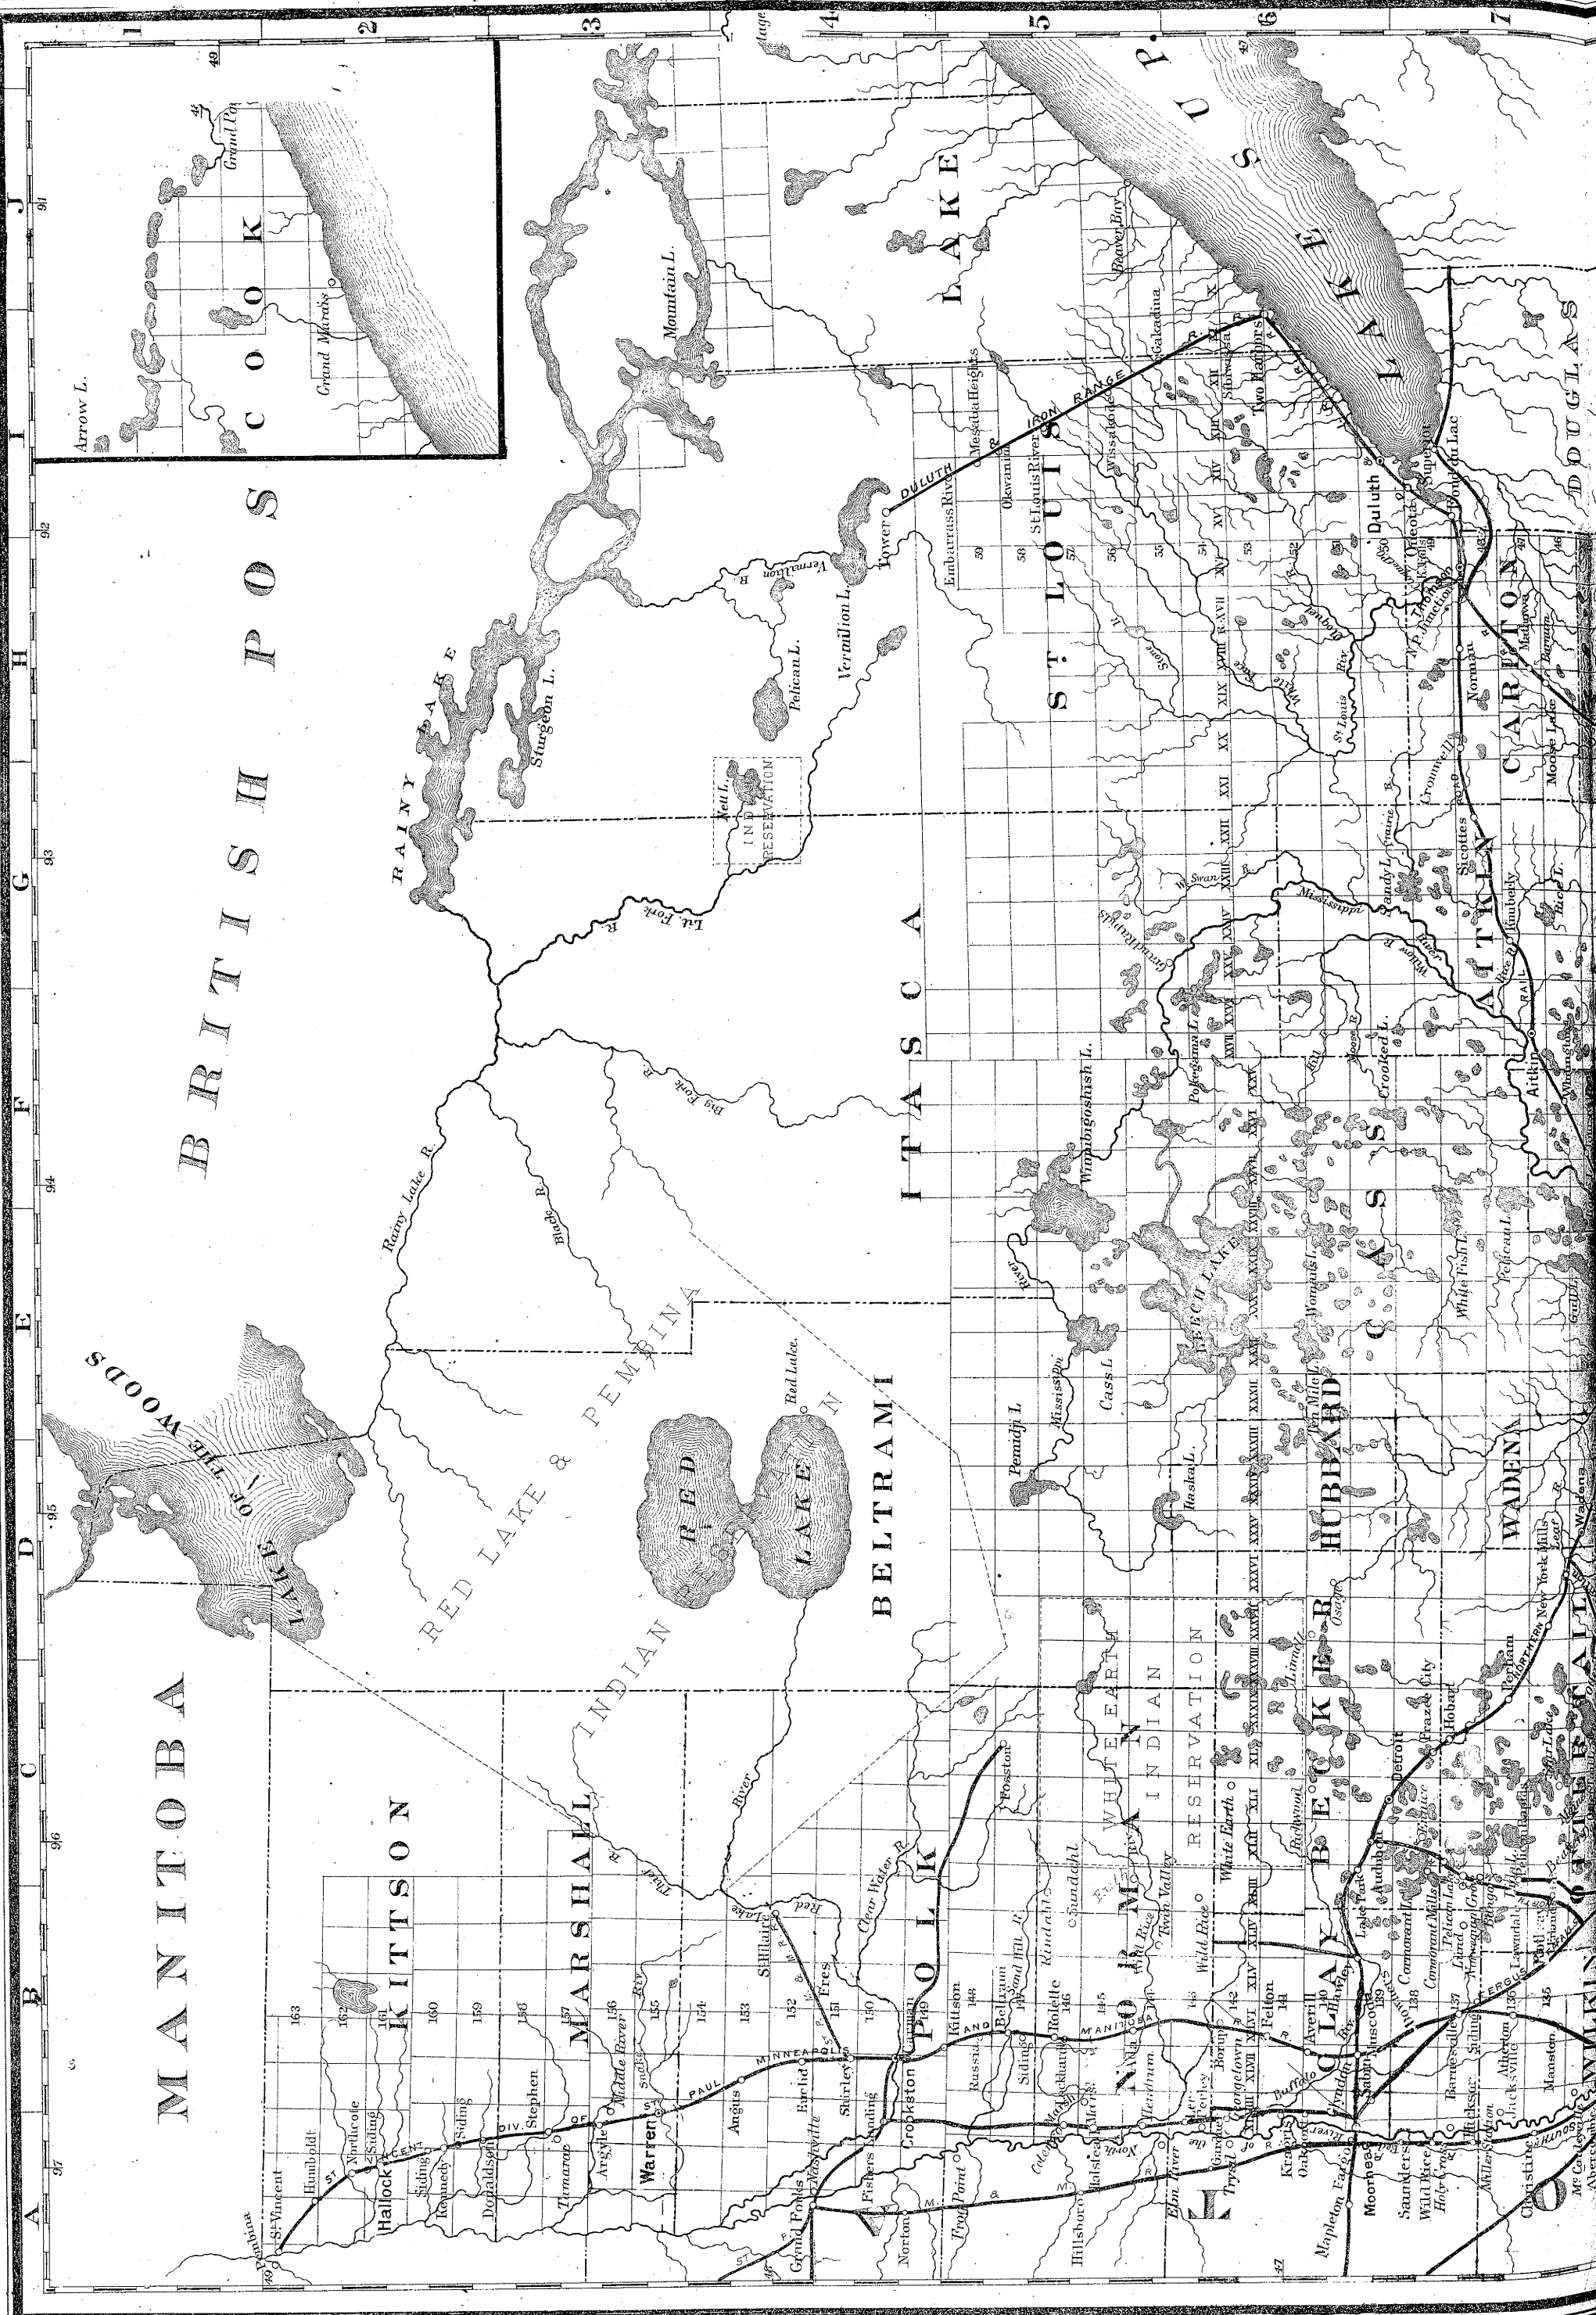

57. The final affidavit must be made before the Register or Receiver, or before the clerk of a court of record in the county and State or Territory where the land is situated. If in an unorganized county the proof may be made in a similar manner in any adjacent county in the same State or Territory.

58. The pre-emptor is required to make oath that he has not previously exercised his pre-emption right; that he is not the owner of 320 acres of land; that he has not settled upon and improved the land to sell the same on speculation, but in good faith to appropriate it to his own exclusive use; that he has not made any contract or agreement, directly or indirectly, in any way or manner, with any person whomsoever, by which the title he may acquire from the United States shall inure in whole or in part to the benefit of any person except himself.

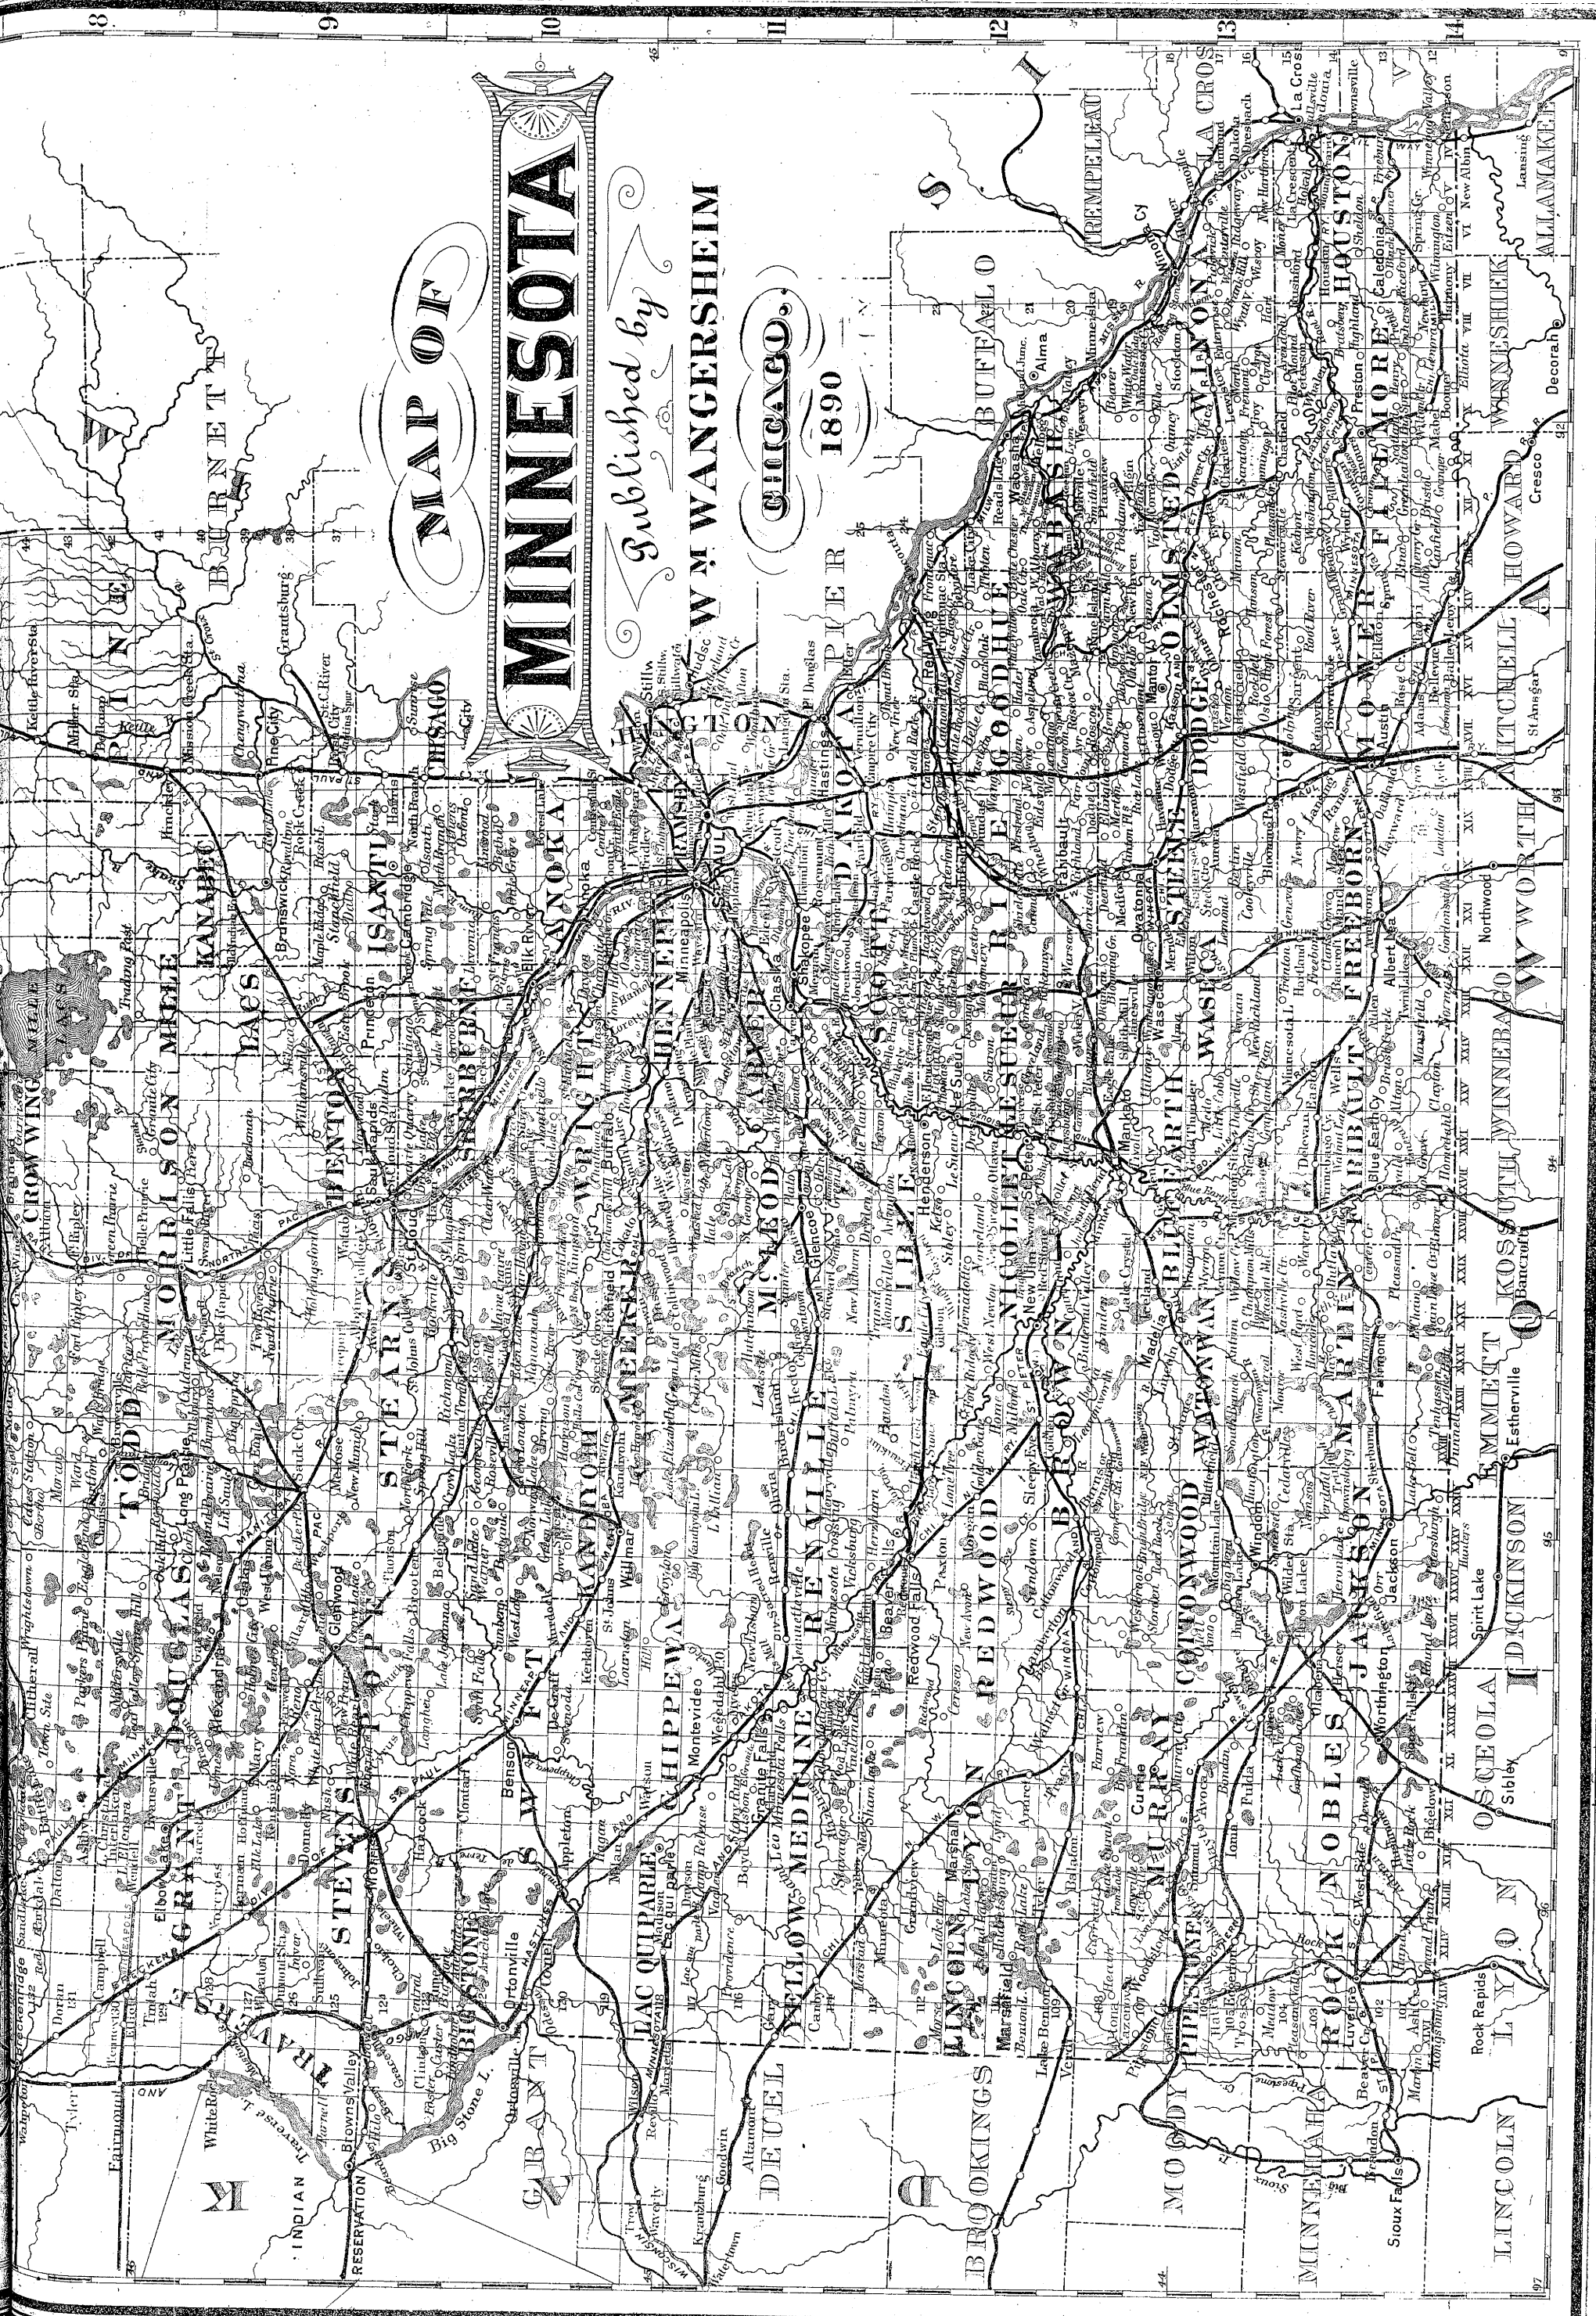

59. Any person swearing falsely *forfeits all right to the land and to the purchase money paid*, besides being liable to prosecution under the criminal laws of the United States.

THE TIMBER CULTURE ACT.

60. A timber culture applicant is required to make oath that his entry is made for the cultivation of timber and for his own exclusive use and benefit; that he makes the application in good faith and not for the purpose of speculation, nor directly nor indirectly for the use or benefit of any other person or persons whomsoever; and that he intends to hold and cultivate the land and to wholly comply with the provisions of the act.

MAP OF
MINNESOTA

(CHICAGO)
1890

GOVERNMENT LANDS.

61. Claimants under the timber culture act will be held to a strict compliance with the terms and conditions of the law.

62. Not more than one-quarter of any section can be entered under this act.

63. Where 160 acres are taken, at least five acres must be plowed within one year from date of entry. The following, or second year, said five acres must be actually cultivated to crop or otherwise, and another five acres must be plowed. The third year the first five acres must be planted to trees, tree seeds, or cuttings, and the second five acres actually cultivated to crop or otherwise. The fourth year the second five acres must be planted to trees, tree seeds, or cuttings, making, at the end of the fourth year, ten acres thus planted to trees.

64. Perfect good faith must at all times be shown by claimants. Trees must not only be planted, but they must be protected and cultivated in such manner as to promote their growth.

65. Final proof may be made at the expiration of eight years from date of entry. It must be shown that for the said eight years the trees have been planted, protected and cultivated as aforesaid; that not less than 2,700 trees were planted on each of the ten acres, and that at the time of making proof there are growing at least six hundred and seventy-five (675) living trees to each acre.

66. Where less than one quarter-section of land is entered, the same proportionate amount of plowing, planting and cultivation of trees must be done as required in entries of 160 acres.

67. If the trees, seeds, or cuttings are destroyed in any one year they must be re-planted. A party will not be released from a continued attempt to promote the actual growth of timber or forest trees. A failure in this respect will subject the entry to cancellation.

68. Only an applicant for the land under the timber culture or homestead laws can institute a contest under the third section of the act of 1878.

69. Contestants have a preference right of thirty days after cancellation in which to make entry of the land.

70. The Government will at any period, upon proper application to contest, or upon its own information, investigate alleged fraudulent or illegal timber culture entries, or alleged failure to comply with the law after entry, and such entries will be canceled upon sufficient proof either of illegality or failure to comply with the law.

71. The land office fee for an entry of more than eighty acres is \$14; for eighty acres or less, \$9.

CAUTION TO APPLICANTS.

Persons making filings or entries under the homestead, pre-emption, or timber culture acts, are cautioned that the laws authorize entries to be made only for the use and benefit of the party making the same, and that entries or filings are not allowed by law to be made for the benefit of others nor for

speculation, but all entries must be made in good faith and the requirements of law must be honestly and faithfully complied with.

REVISED STATUTES OF THE UNITED STATES.

SEC. 2246. The Register or Receiver is authorized, and it shall be their duty to administer any oath required by law or the instructions of the General Land Office, in connection with the entry or purchase of any tract of the public lands; but he shall not charge or receive, directly or indirectly, any compensation for administering such oath.

SEC. 5392. Every person who, having taken an oath before a competent tribunal, officer, or person, in any case in which a law of the United States authorizes an oath to be administered, that he will testify, declare, depose or certify truly, or that any written testimony, declaration, deposition, or certificate by him subscribed is true, willfully and contrary to such oath states or subscribes any material matter which he does not believe to be true, is guilty of perjury, and shall be punished by a fine of not more than two thousand dollars, and by imprisonment at hard labor not more than five years; and shall, moreover, thereafter be incapable of giving testimony in any court of the United States until such time as the judgment against him is reversed.

SEC. 5393. Every person who procures another to commit any perjury is guilty of subornation of perjury, and punishable as in the preceding section prescribed.

SEC. 5440. If two or more persons conspire either to commit any offense against the United States, or to defraud the United States in any manner or for any purpose, and one or more of such parties do any act to effect the object of the conspiracy, all the parties to such conspiracy shall be liable to a penalty of not less than one thousand dollars and not more than ten thousand dollars, and to imprisonment not more than two years.

SEC. 5479. If any person shall falsely make, alter, forge, or counterfeit, or cause or procure to be falsely made, altered, forged, or counterfeited, or willingly aid or assist in the false making, altering, forging or counterfeiting, any bond, bid, proposal, guarantee, security, official bond, *public record, affidavit or other writing* for the purpose of defrauding the United States, or shall utter or publish as true, or cause to be uttered or published as true, any such false, forged, altered, or counterfeited bond, bid, proposal, guarantee, security, official bond, public record, affidavit or other writing for the purpose of defrauding the United States, knowing the same to be false, forged, altered, or counterfeited, or shall transmit to, or present at, or cause or procure to be transmitted to, or presented at, the office of any officer of the United States, any such false, forged, altered, or counterfeited bond, bid, proposal, guarantee, security, official bond, public record, *affidavit or other writing*, knowing the same to be false, forged, altered, or counterfeited for the purpose of defrauding the United States, shall be punishable by a fine of not more than one thousand dollars, or by imprisonment at hard labor for not more than ten years, or by both such punishments.

GUIDE TO COLORADO.

EXPLANATION.

To find the location of any county, town, stream or mountain on this map, refer to the figure and letter on the right of the name, which correspond with the figures on the top and letters on the right hand side of the map, and in the angle or square where these meet will be found the location of the county, town, stream or mountain sought for.

MAP OF NEW MEXICO, 1890.

GUIDE TO WASHINGTON TERRITORY.

EXPLANATION.

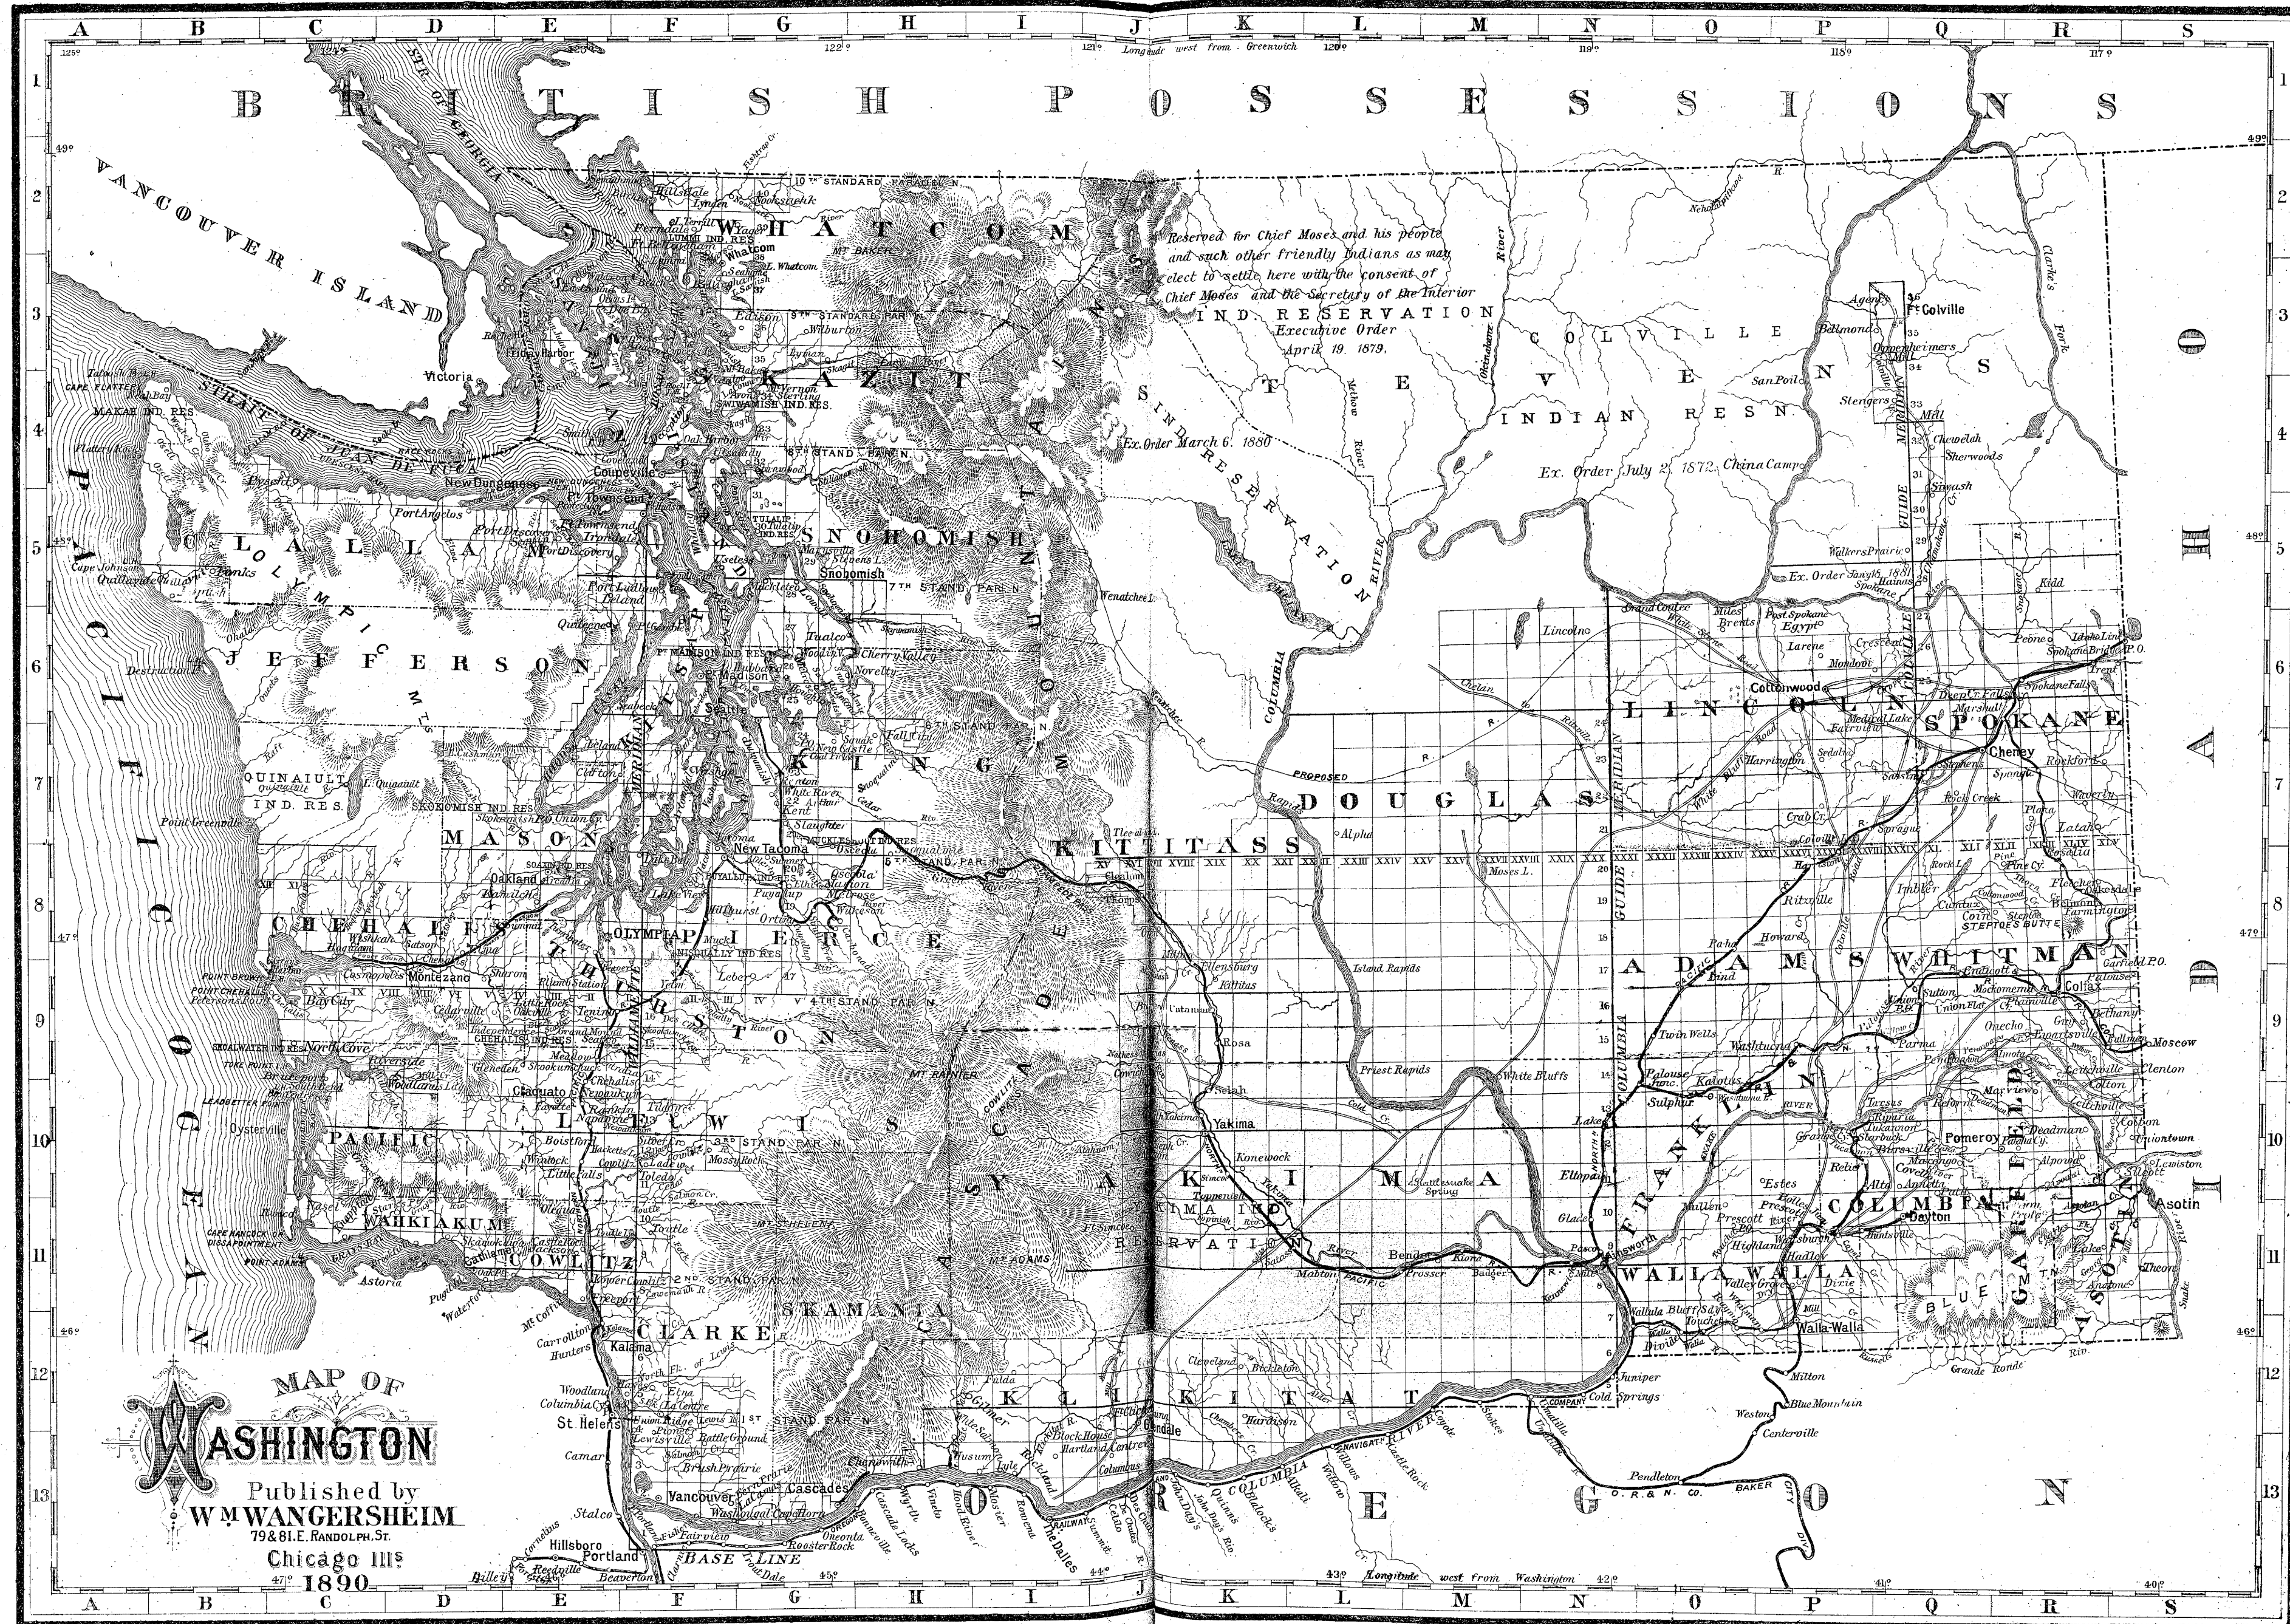

To find the location of any town on this map, refer to the figure and letter on the right of the name, which correspond to the figures on the top, and the letters on the right-hand side of the map, and in the angle or square where these meet will be found the location of the town sought for. A * before a name denotes that the population of the whole *township* is given. Names in *italics* are county-seats. Figures immediately following a name denote the population according to the census of 1880.
